...IP Office Solutions

v9.1

AVAYA

The Power of We™

Westcon is a value added distributor of category-leading unified communications, infrastructure, data centre and security solutions with a global network of specialty resellers. Our teams create unique programmes and provide exceptional support to accelerate the business of our partners. Strong relationships at every level of the Westcon organisation enable our partners to receive support tailored to their needs. From global logistics and flexible customised financing solutions to pre-sales, technical and engineering assistance, we work with our partners to respond with agility and speed to changing market conditions so they can achieve the fastest time to revenue.

The Avaya team at Westcon provides support through every aspect of the sales cycle, offering dedicated account management, marketing and a wide range of pre and post sales training and support. With a consultative approach the team is dedicated to helping you develop compelling solutions and grow your business.

This guide is designed to help you understand Avaya IP Office solutions and the benefits they bring to your customer.

About Westcon Group

Westcon is a value added distributor of category-leading unified communications, infrastructure and security solutions with a global network of specialty resellers. Our teams create unique programmes and provide exceptional support to accelerate the business of our partners. Strong relationships at every level of the Westcon organisation enable our partners to receive support tailored to their needs. From global logistics and flexible customised financing solutions to pre-sales, technical assistance, we work with our partners to respond with agility and speed to changing market conditions so they can achieve the fastest time to revenue. We have deep expertise in data networking, Unified Communications and security.

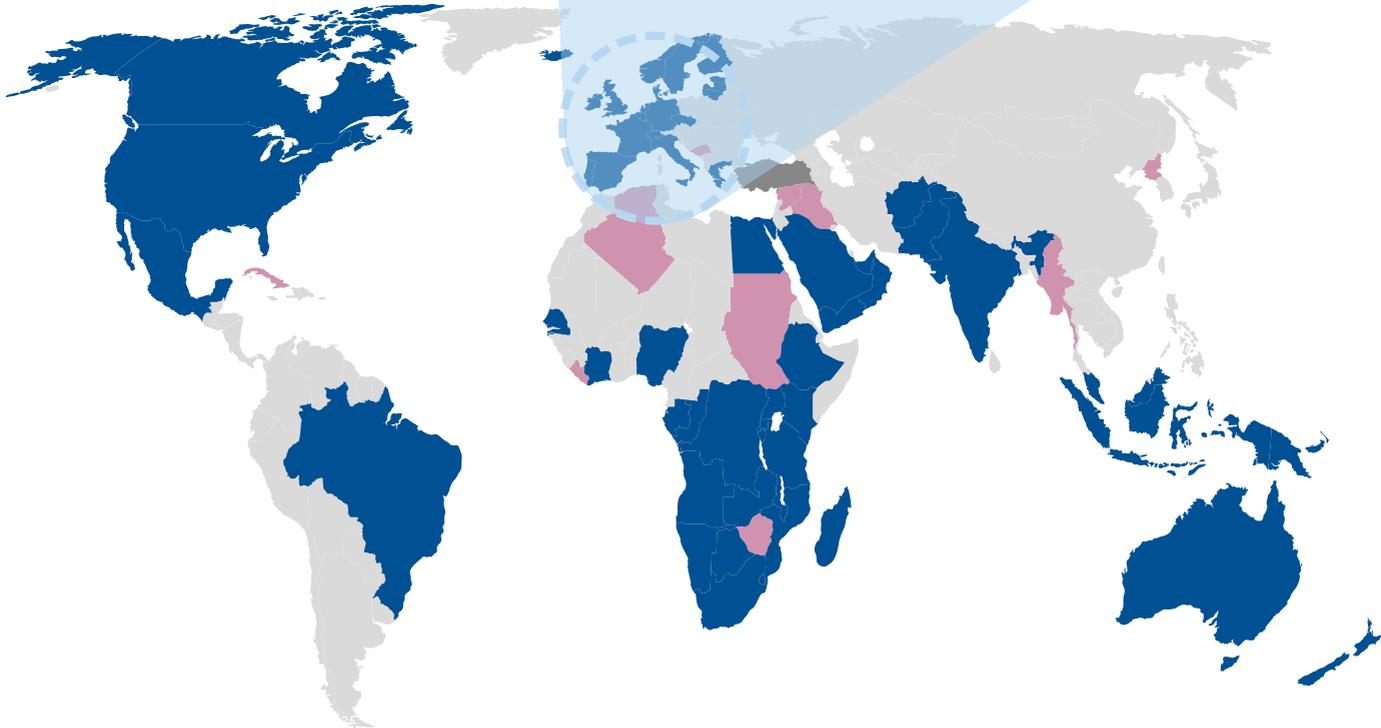

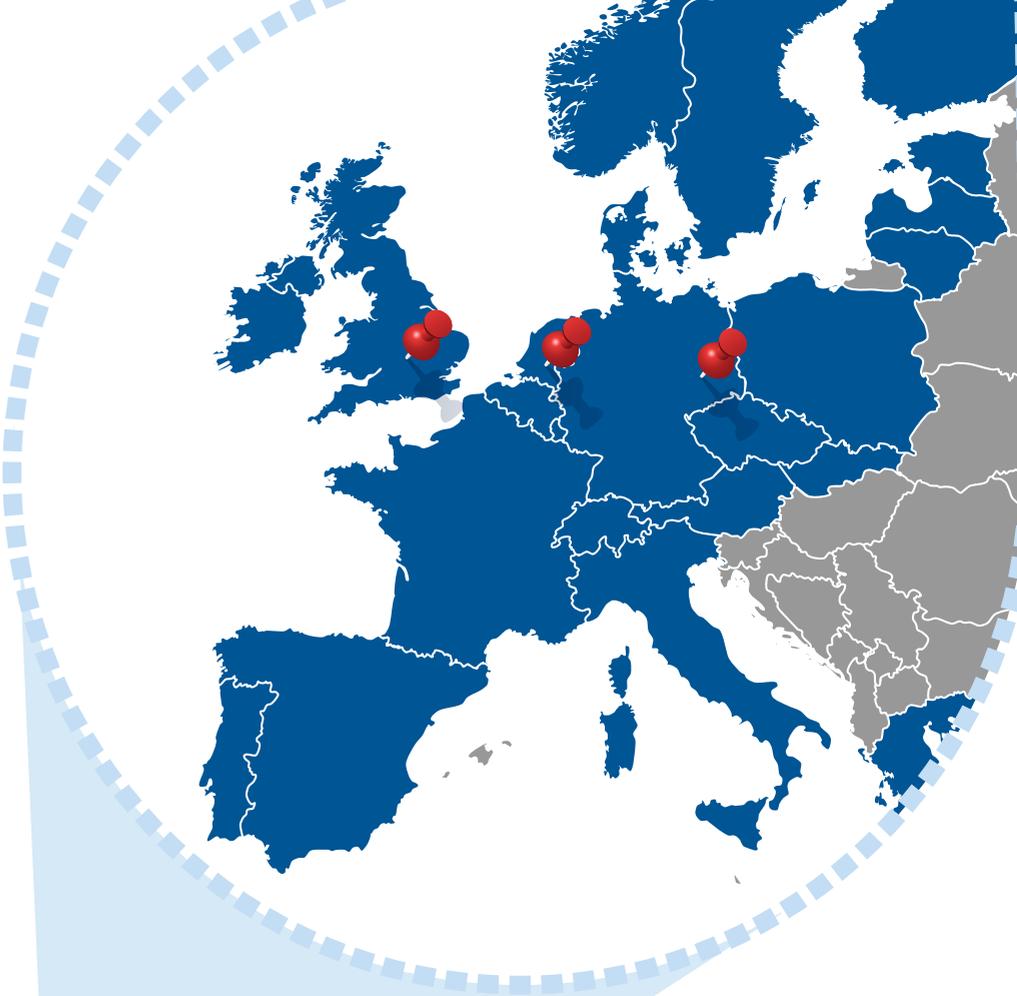

Global Coverage

EUROPEAN FOCUS...

Westcon Group has over 100 offices,
shipping to more than 100 countries

20+ logistics/staging facilities

- In-country presence
- Ship-to countries
- Representative OFAC countries
- JV countries
- Logistics Centre

How Westcon supports its resellers

Westcon is dedicated to supporting its resellers' businesses, and we aim to make working with us an enjoyable and profitable experience. With extensive experience of supporting multiple reseller channels, we know that the key to this is to invest heavily in highly skilled staff, a comprehensive range of services and market leading products.

A dedicated account manager ensures that you have access to our full range of support:

- Experience to help grow your business
- Complete commercial ownership
- Business development support

- Solution pre-staging
- System installation and commissioning
- Technical Support & Maintenance
 - VoIP network readiness testing
 - Project Management

With a strong focus on customer service, our team offers:

- Efficient logistics
- Order processing and fulfilment
- E-Commerce
- Query resolution

Thanks to Westcon Group's global strength, you can benefit from:

- Flexible credit: Your account is managed by an experienced team who will help you maximise your procurement requirements
- Multiple currencies (€, £, \$)
- Solid financial backing even for the largest deals
- Leasing programmes

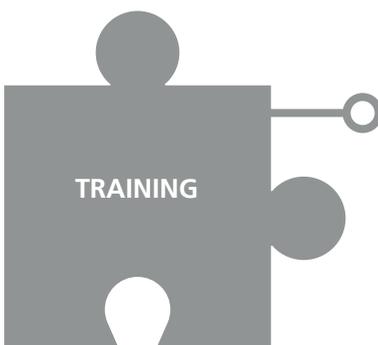

Our highly experienced pre-sales team offer a wealth of knowledge and expertise.

- Advice and consultancy for complex and multi-vendor solutions
- Full support during the bidding process
- System design validation, configuration and pricing
- Customer presentations and solution demonstrations

- Compelling award-winning programmes
- Vendor product management
- Channel marketing support
- Comprehensive demand generation initiatives
- Marketing design and customisation service
- Regular product forums & road shows
- Data and campaign services
- Extensive Westcon collateral library
- Promotions and incentives

Westcon | Academy

Our award winning training academy runs a complete programme of sales, pre-sales and technical training courses. These courses provide hands-on experience with the latest products in a friendly and comfortable training environment.

Our trainers are certified to deliver technical training using authorised training material and provide you with the opportunity to take vendor certified assessments.

Introduction to IP Office

Why IP Office for the Mid-Market?

Avaya IP Office represents a mature, feature-rich solution capable of meeting the needs of a number of different customers – from the very small (2+ users), to larger mid-market organisations with up to 2,000 users. Any Business Partner considering selling into the Mid-Market should look to Avaya IP Office as the platform of choice for their customers.

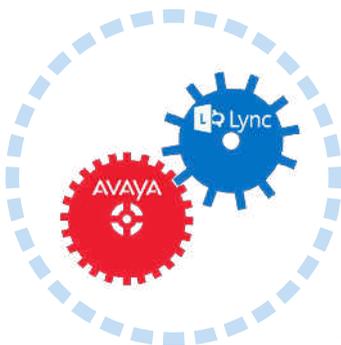

HERE TO STAY (AND GROW!)

Avaya is heavily focused on the Mid-Market opportunity, ensuring that business partners and end-users receive comprehensive support. IP Office benefits from strong R&D investment and is still only in the 'expansion' phase of its product lifecycle – it represents a long-term investment to businesses of all sizes. Launched in 2002, IP Office sales have grown steadily, reaching over 60,000 sales in CY2012. Further proof of Avaya's commitment to developing their solutions was the acquisition of Nortel in 2009, Sipera in 2011 and Radvision in 2012. Investments in IP Office are future-proof thanks to Avaya's focus and to its scalability - one platform can cover 2 to 2,000 users, across a single site or up to 32 sites.

FASTER TIME TO HIGHER REVENUES

Avaya IP Office has a much shorter sales cycle than enterprise solutions like Avaya Aura, meaning that resellers' time to revenue is much quicker. Additional revenue opportunities are made possible by strong complementary products from the Avaya portfolio, like video, networking and session border controllers. Headset vendors, Jabra and Plantronics, both available from Westcon, complement IP Office solutions to increase the value to the user and the value of the sale for the Business Partner.

COOPERATE WITH AND COMPETE AGAINST LYNC

Don't leave the door open for Microsoft in new sales or the installed base. Customers can continue moving to Lync on the desktop but you can secure the UC environment with IP Office by integrating with Lync. The customer retains their desktop strategy of Microsoft but Avaya provides the UC functionality.

A RICH SOLUTION DOESN'T NEED TO BE COMPLEX

Avaya IP Office is a simple, yet robust and feature-rich solution available as a single "box", making it easy to design, sell, install and set-up. Different 'Editions' and 'Worker Profiles' enable organisations to choose the feature package that suits their exact needs.

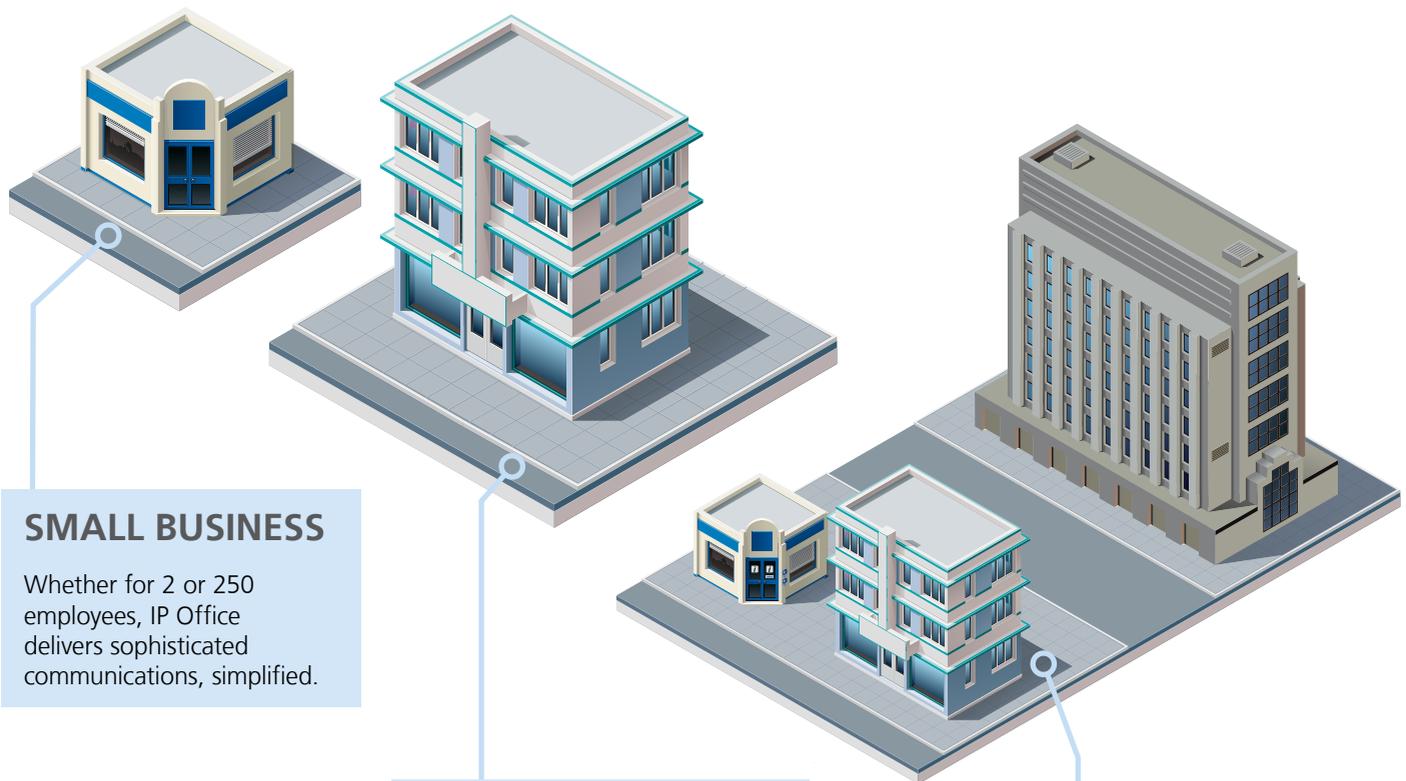

9.0 - A NEW RELEASE PACKED WITH EVEN MORE BENEFITS

The latest release of IP Office (R9.0) enables integration with Avaya Aura (as a branch solution) and presents enhanced resiliency options. Virtualisation is supported through Server Edition, positioning IP Office as an attractive solution to IT managers. With the new release of Avaya IP Office comes a dedicated Mid-Market team from Avaya to help support resellers looking to maximise opportunities in the mid-market.

IP Office Overview

SMEs want simplified Unified Communications that will enable them to be competitive and serve their customers better, but with capabilities implemented in a solution that is flexible and scalable. The growing adoption of flexible working is driving the requirement for SMEs to support 'bring your own device' (BYOD) strategies. However, to fit in with SME budgets and cost restraints, UC solutions must have minimal administrative and training requirements and be easy to deploy to any user across the network.

A FLEXIBLE & FEATURE-RICH UC SOLUTION FOR SMALL TO MIDSIZE BUSINESSES

SMALL BUSINESS

Whether for 2 or 250 employees, IP Office delivers sophisticated communications, simplified.

MIDSIZE ENTERPRISE

With its ability to scale to 2,000 users at a single site (or across as many as 32 locations), IP Office is ideally suited to the midsize enterprise that wants powerful, business-impacting communications. IP Office is an industry leader in low total cost of ownership and unique in its ability to grow in both scale and sophistication.

BRANCH OFFICES

Large enterprises with branch offices confront the cost and complexity of keeping everyone communicating. IP Office links seamlessly with Avaya Aura, the award-winning enterprise communications system that powers over 85 percent of the Fortune 500.

PRODUCTIVE REGARDLESS OF LOCATION

Users can work anytime and anywhere; from home, on the road, from a hotel room or abroad, and still have access to all the features that would be available from the office desk.

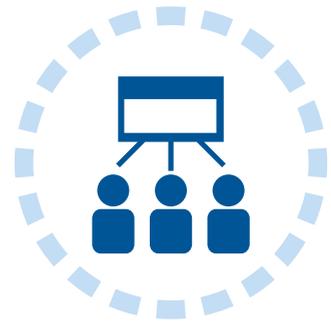

Make and receive business calls right from an Apple iPad. Take full control of conference calls. Tap to add, mute or disconnect callers to manage conferences as easily as if you were at your desk.

Bring full desktop communications to iPhone or Android smartphone devices.

Tap your smartphone to let everyone know you're available, on the phone, or in a meeting. Automatically get notified when colleagues' Presence status changes for speedier collaboration.

Add video and with just a few clicks users can collaborate.

COLLABORATION

CUSTOMER SERVICE

CONNECT THE WORKFORCE

Multiple systems can be networked together, providing VoIP benefits such as free inter-site calls, seamless feature integration, virtual agents and centralised voicemail, operator and management functionality.

Need to get a service tech to a client quickly? With geo-presence, you can track the location of sales or service people right from your smartphone.

Bring your company directory everywhere for instant access to all your contacts. Call, email, IM and check presence for more meaningful collaboration.

BYOD

ENHANCE THE CUSTOMER EXPERIENCE

Every missed call is a missed opportunity. IP Office provides messaging and customer interaction solutions to ensure calls are never missed.

Calls to the office ring on any designated device, so you never miss a call. Log on to any IP desk phone in the network and it becomes the user's phone.

Get all business voice and email messages on your smartphone. With IP Office's visual voice mail, you can prioritise messages and respond to the most important ones first.

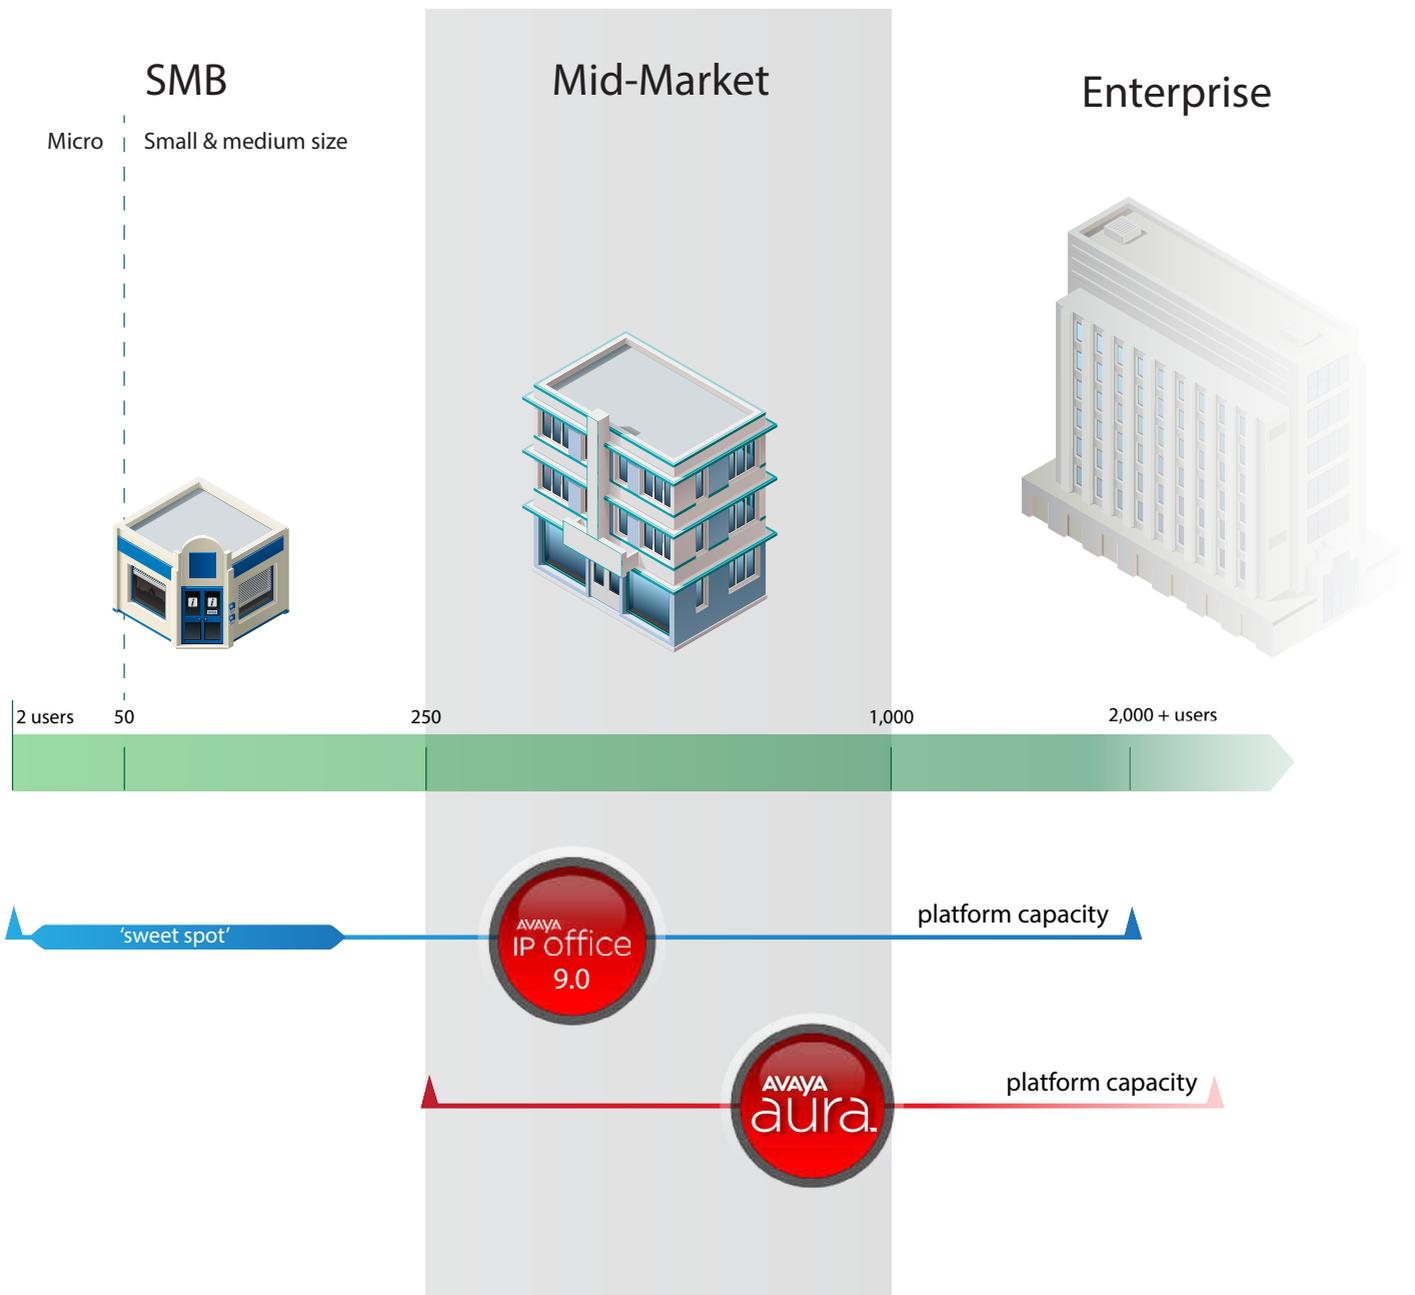

REDUCE COSTS

IP Office can significantly help lower costs with SIP trunk support, sophisticated conferencing options, advanced mobility solutions and customer service tools.

IP Office 9.0 Positioning

IP Office 9.0 puts the solution firmly on the Mid-Market with a host of features and new functionality including:

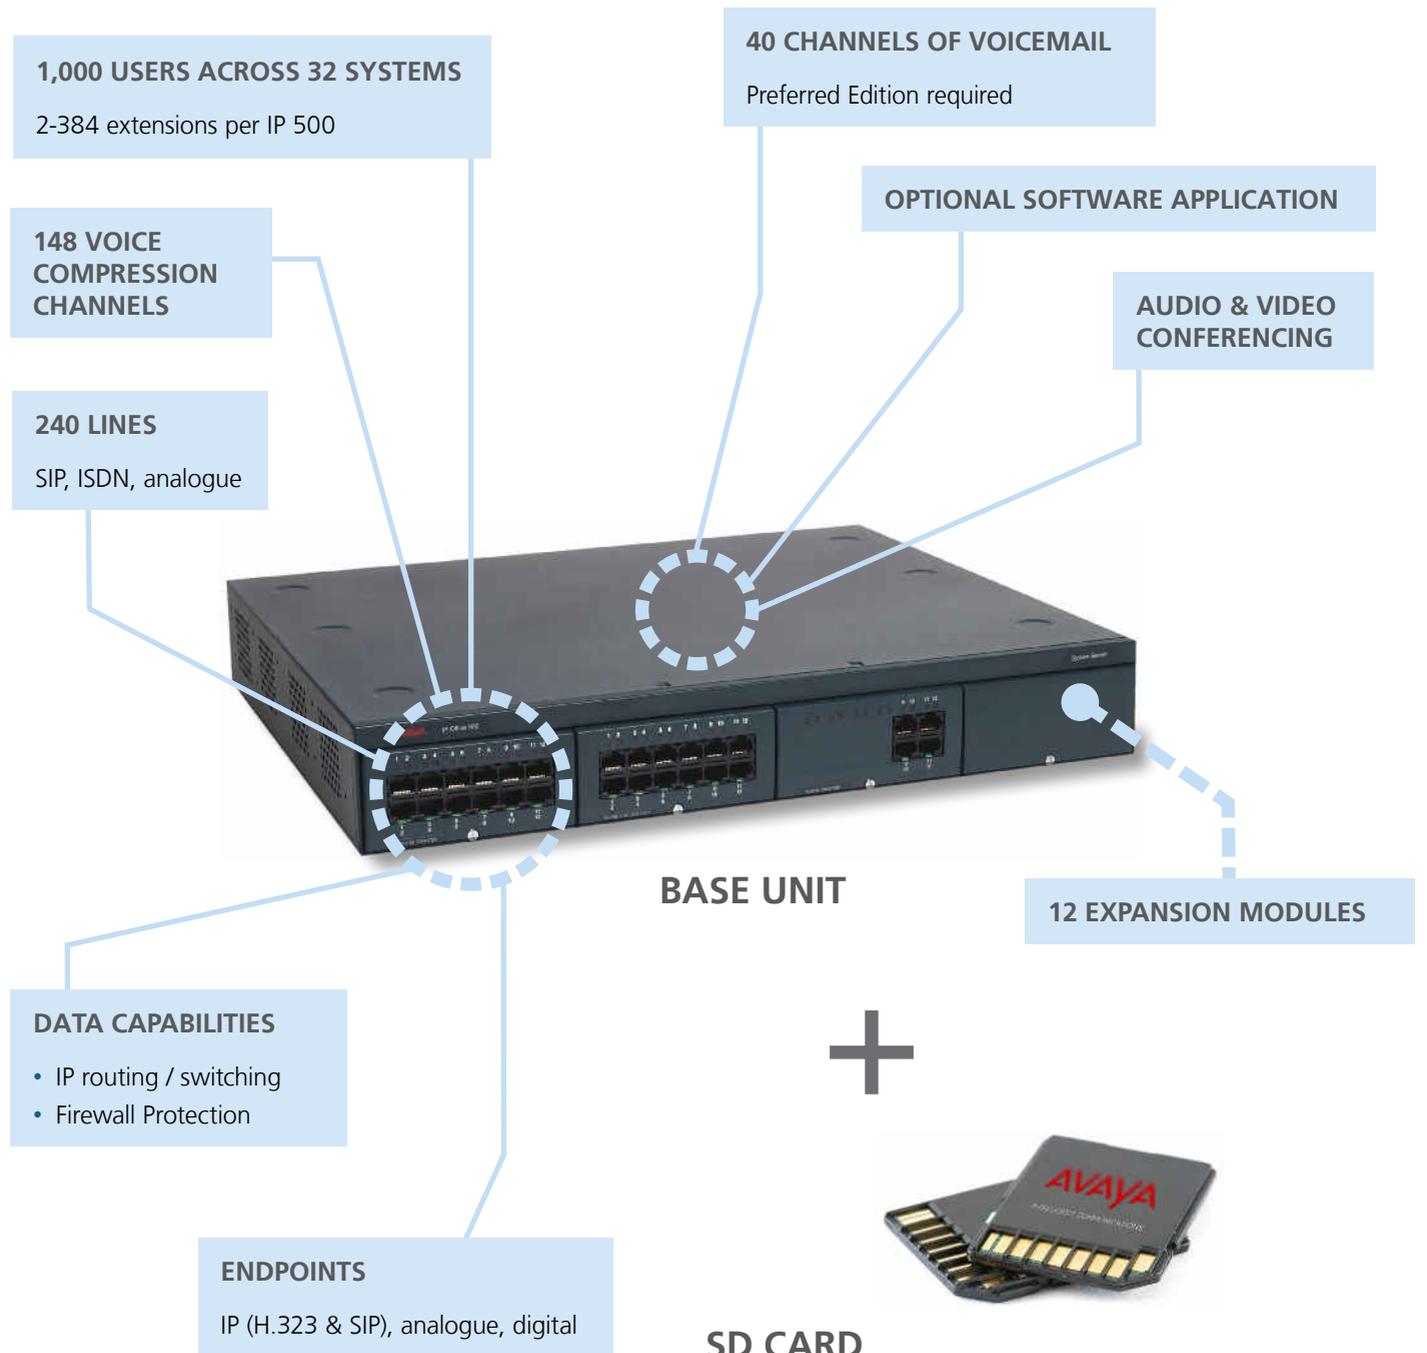

- Scalability to 2,000 users on a single server
- Voicemail capacity increases to 150 ports
- Conferencing capacity doubles to 256 parties
- Over 100 GRIP requests added
- VMware deployment option
- Simplified Web Manager for all Editions
- Active Call preservation
- PSTN fall back
- Centralised voicemail licencing
- Enhance one-X Mobile Preferred client featuring 'Call Transfer'
- Secure, VPN-less connection via Avaya SBCE
- IM functionality added to IP Office Outlook Plug-In
- New Dell R210 server replacing HP DL120
- IP Office 9.0 as a branch solution – replacing B5800

Unified Communications

Infrastructure

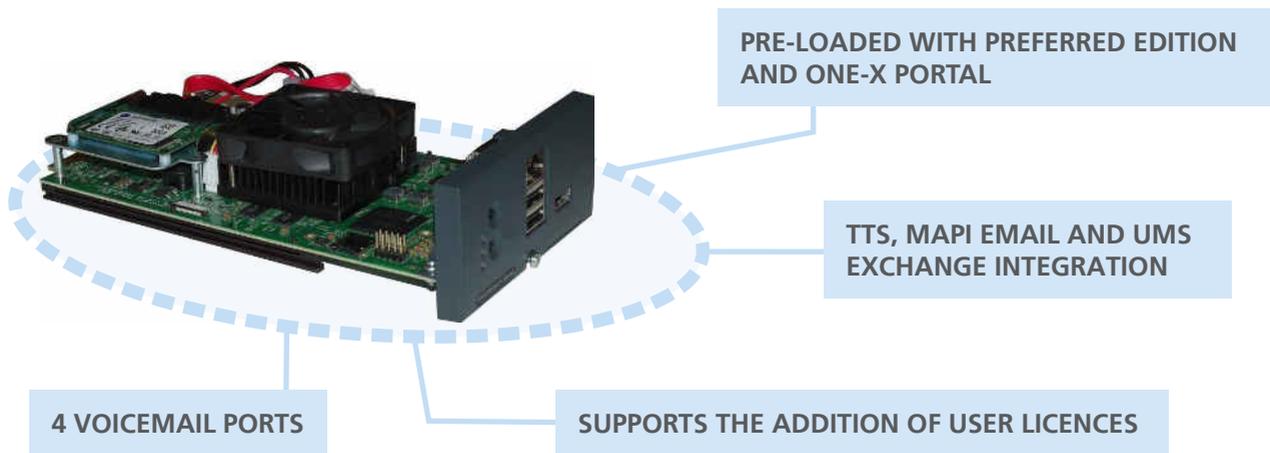

IP 500

An optional SD Card can also be used to provide backup to the primary SD Card to ensure business continuity. The optional card can be a standard 'off the shelf' class 4 SD card.

UNIFIED COMMUNICATIONS MODULE (1 PER IP500V2)

Removes the need for an external server and Microsoft server licences

OR

EXTERNAL APPLICATIONS SERVER

Supports deployments where the C110 UC Module does not provide the scalability required

UP TO 2,000 MAILBOX/USERS

Multi-site SCN up to 32 systems

UP TO 750 ONE-X PORTAL (DL360)

UP TO 250 ONE-X PORTAL (DL120 G7)

Power User, Tele-Worker, Office Worker and Mobile Worker

UP TO 430 PORTS OF PREFERRED EDITION

The external solution is based on an HP ProLiant DL120 G7 server and runs Linux.

Preferred Edition and Worker licences are sold separately.

BASE CARDS

Base cards can support a daughter card for additional capacity and functionality.
(Excluding the 4 Port Expansion Card)

IP500 4 PORT EXPANSION CARD

Additional 4 external expansion modules (must be installed into slot 4 of the IP500 system)

DIGITAL STATION (DS) 8 CARD

8 digital station extension ports
(maximum 3 per IP500)

PHONE 2 CARD

2 analogue extension ports
(maximum 4 per IP500)

PHONE 8 CARD

8 analogue extension ports
(maximum 4 per IP500)

VOICE COMPRESSION MODULE (VCM) 32

32 voice compression channels

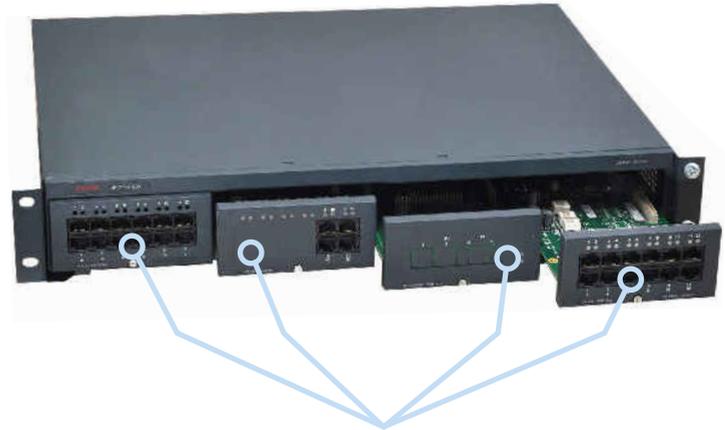

VOICE COMPRESSION MODULE (VCM) 64

64 voice compression channels

LEGACY CARRIER CARD

Up to 2 Legacy Carrier Cards per IP500.
Supports legacy IP400 cards:

- Single ISDN30/E1
- Dual ISDN30/E1
- VCM 4, 8, 16, 24, 30
- 4 Port Analogue Trunk Expansion
- BRI 8

4X BASE CARDS PER IP500 BASE UNIT

COMBINATION CARDS

Do not support additional daughter cards.
Maximum 2 combination cards per IP500 system.

COMBINATION CARD ATM4

- 6 x digital phone ports
- 2 x analogue phone ports
- 4 x analogue trunks
- 10 x VCM channels

COMBINATION CARD BRI4

- 6 x digital phone ports
- 2 x analogue phone ports
- 2 x BRI (4 channels)
- 10 x VCM channels

TRUNKS: CARDS & LICENSING

Install onto IP Office base cards as daughter cards (except 4 Port Expansion Card)

CARD	DESCRIPTION	AVAILABLE LICENCES
ATM4 ANALOGUE LINE CONNECTIVITY	4 analogue lines	N/A
BRI 4 ISDN2E TRUNK CARD	2 ISDN2e circuits (4 channels)	N/A
BRI 8 ISDN2E TRUNK CARD	4 ISDN2e circuits (8 channels)	N/A
IP500 PRI 30 E1 TRUNK CARD	Up to 30 PRI channels (8 circuits enabled by default). Licence required to increase channels	Additional 2, 8 or 22 channels
IP500 PRI 60 E1 TRUNK CARD	Up to 60 PRI channels (16 circuits enabled by default). Licence required to increase channels	Additional 2, 8 or 22 channels
IP500 BRI 50 CONVERTER CABLE	Required to convert BRI to an S08 for ISDN to the desk	N/A

ENDPOINT LICENSING

3 LICENCES AVAILABLE FOR AVAYA ENDPOINTS:

- 1x Avaya IP Phone
- 5x Avaya IP Phones
- 20x Avaya IP Phones

Note: 12 x IP Phones are enabled with a VCM32 and VCM64 card with IP Office R6.

5 LICENCES AVAILABLE FOR THIRD-PARTY SIP ENDPOINTS:

- 1x SIP Endpoint
- 5x SIP Endpoint
- 10x SIP Endpoint
- 20x SIP Endpoint
- 50x SIP Endpoint

EXPANSION MODULES

Increase overall solution capacity

Up to 8 expansion modules are supported as standard. The 4 port expansion card increases capacity to 12 expansion modules.

Existing IP Office 400 expansion modules are supported excluding the WAN3 module.

3 expansion modules are available:

PHONE 16 MODULE

16 analogue devices connections

IP500 PHONE 30 MODULE

30 analogue devices connections

IP500 ANALOGUE 16 MODULE

16 analogue circuits

DS16B MODULE

16 digital phones

DS30B MODULE

30 digital phones

+ POWER LEAD (1 PER MODULE)

+ IP500 RACK MOUNT KIT

Nortel Migration Hardware

Nortel customers can migrate to IP Office and retain the phones which are a key part of the initial investment.

The following IP Office hardware components allow Nortel digital phones to work on IP Office. As the modules provide RJ21 connectivity there is no need for re-cabling.

IP500 TCM-8 CARD

- 8 digital ports for Nortel phones

IP 500 DS16B / DS30B

- For up to 16 or 30 DS or TCM phones
- Default to DS Phone operation

IP500 DS16A / DS30A

- For 16 or 30 digital Nortel phones
- Do not support Avaya digital phones
- Can be used in conjunction with the Nortel modules

IP Office 500 supports a range of Nortel phones:

IP PHONES

1120E, 1140E, 1220, 1230, and the 12 key Expansion Module

DIGITAL PHONES

- T Series: T7000, T7100, T7208, T7316, T7316e and the T24 Expansion Module
- M Series: M7000, M7100, M7208, M7310, M7324

DIGITAL MOBILITY 1.8 GHZ

4135, 4145, 4145EX, 4136, 4146, 4146EX

WIRELESS PHONE

T7406E

Server Edition (including Virtualisation)

Mid-market organisations face different challenges and have different needs to large enterprise. They are expected to perform like their larger competitors but with less resource and smaller budgets. As such Server Edition delivers significant value in helping to fulfil business needs and overcoming business issues.

Server Edition has been specifically designed to address up to 2,000 users on a single site or across up to 32 locations. This scale increase is delivered on a Linux server as opposed to the IP Office 500v2 platform.

KEY COMPONENTS

IP OFFICE SOFTWARE RUNNING ON A LINUX SERVER
(required)

SERVER EDITION LICENCE
(required for each system)

IP OFFICE SOFTWARE RUNNING ON THE IP500V2
(optional)

VIRTUALISATION BENEFITS

- IP Office can co-reside with other applications
- Optimise data centre footprint - lower TCO
- Scale is not impacted - 2,000 users

DEPLOYMENT SCENARIOS

1. SERVER EDITION WITH PURE IP DEPLOYMENT:

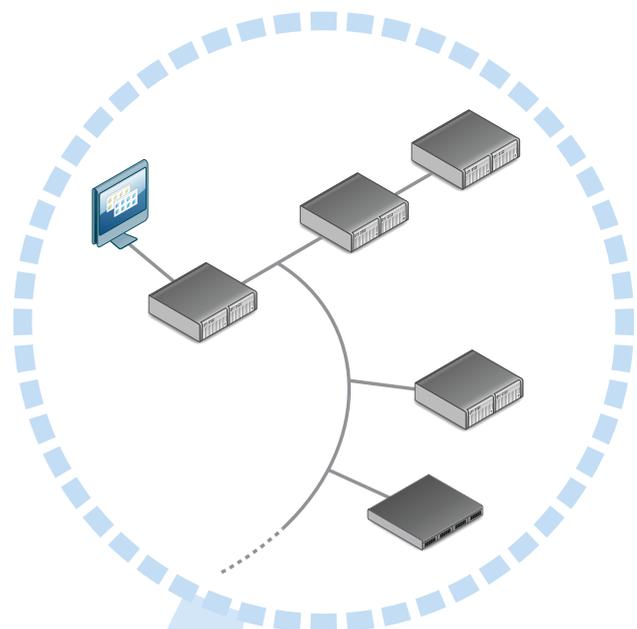

- All IP phones with SIP trunks everywhere
- Use Avaya sourced server for applications, IP phones and SIP trunks

2. SERVER EDITION WITH HYBRID DEPLOYMENT:

- A mix of analogue, digital or IP phones everywhere
- Use Avaya sourced server for applications, IP phones and SIP trunks
- Use IP Office 500v2 for TDM stations and trunks

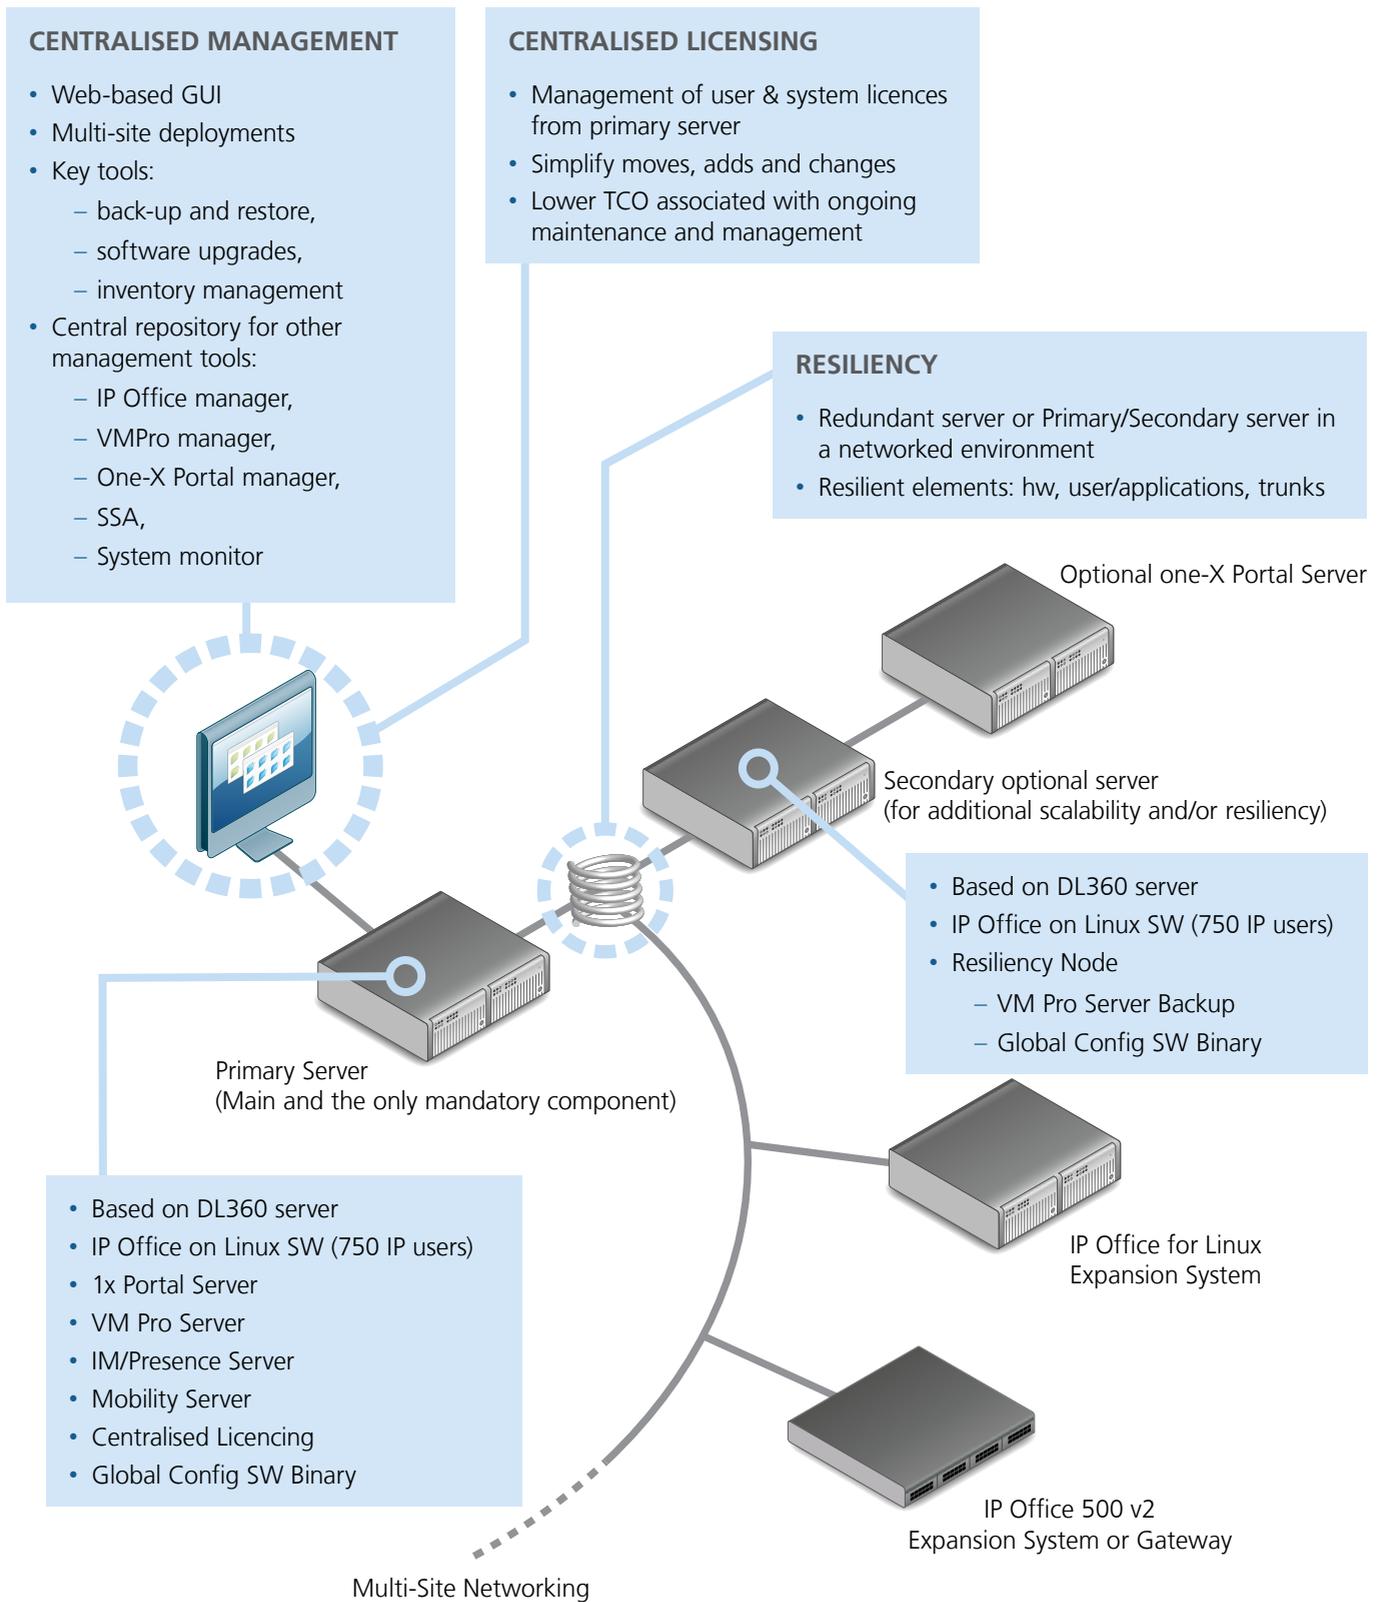

3. SERVER EDITION IN A VIRTUALISED ENVIRONMENT:

- Virtualised SW & applications server
- Packaged in a single OVA format ready for install
- Based on VMware vSphere 4.x or 5.x software

Deployment example on following page

EXAMPLE OF A SERVER EDITION MULTI-SITE NETWORK

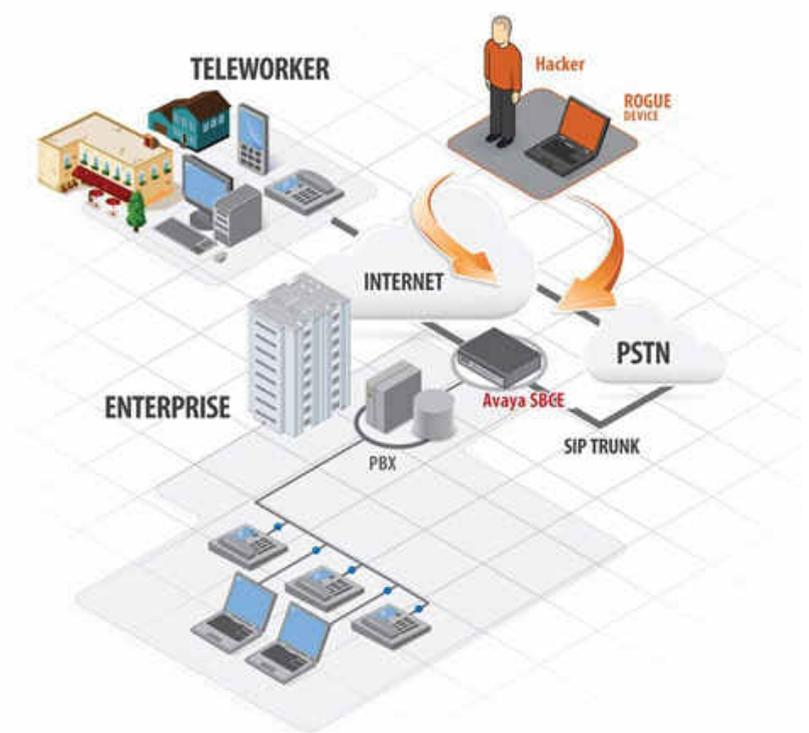

Avaya Session Border Controller for Enterprise (SBCE)

Avaya SBCE is a single solution providing SIP-based security functionality across two key areas:

1) STANDARDS-BASED SECURE SIP TRUNKING FOR AURA OR IP OFFICE

- Highly scalable solution
- High availability option (Platform dependant)
- Advanced UC security such as Toll Fraud & Call Walking
- Deep packet inspection (SIP & Media)
- DoS/DDos attack protection
- ACL/White/Black listing
- SIP Normalisation for SIP trunk integration
- Call Admission Control (CAC)
- Quality of Service Marking and Tracking
- DTMF Manipulation
- NAT
- RFC 5853 Compliant

2) ADVANCED SERVICES FEATURES

- VPN-less Remote Worker connectivity:
 - Validate and securely support remote/mobile workers or the extension of Avaya UC services
 - Support near & far-end NAT
- Encryption Services
 - SIP TLS <-> TCP, UDP
 - sRTP <-> RTP
- Media Replication
 - Ability to fork media to a recording device

Functionality according to options 1 or 2 is enabled by Standard or Advanced licencing respectively. Standard and Advanced licences can co-reside on the same system.

DEPLOYMENT FOOTPRINTS AVAILABLE:

**SINGLE SERVER (DELL)
PLATFORM SUPPORTING UP
TO 2,000 SESSIONS**

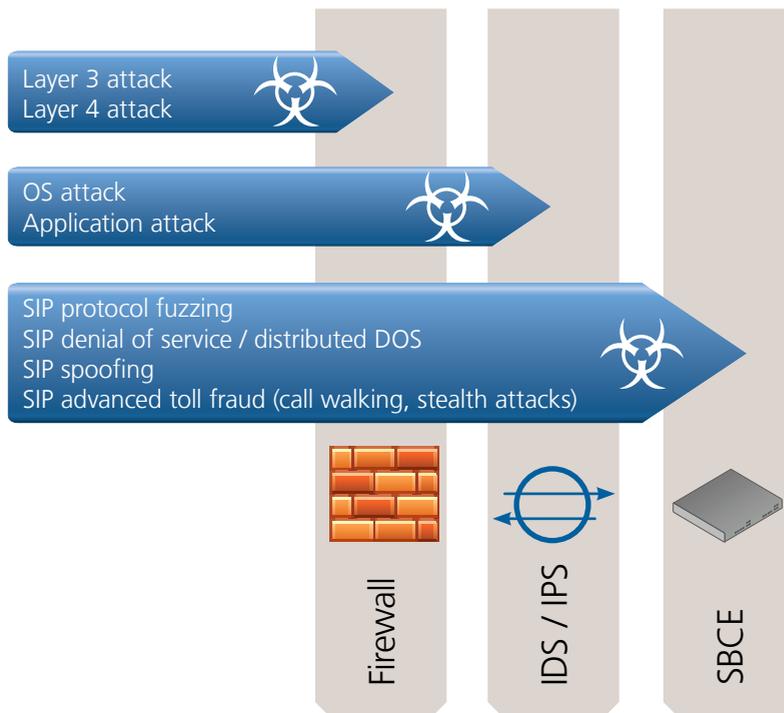

**DUAL SERVER (DELL)
PLATFORM SUPPORTING UP
TO 2,000 SESSIONS (HIGH
AVAILABILITY (HA) OPTION)**
Element Management System
(EMS) required

**SBCE FOR IP OFFICE
(PORTWELL APPLIANCE)
SUPPORTING UP TO 500
SESSIONS - MINIMUM IPO 8.1**

AVAYA SBCE FOR SME (REQUIRES 8.1 MINIMUM)

The security of SIP/VoIP connectivity is key to a successful SIP-based communications deployment. Data network firewalls protect a variety of traffic types but are not 'application-aware'. Current industry best practice for securing SIP-based communications is the deployment of a Session Border Controller (SBC) at the edge of the network.

HOW DOES AVAYA SBCE FIT LAYERED SECURITY ARCHITECTURE FOR SIP TRUNKING?

AVAYA SBCE BRINGS A NEW LEVEL OF SIP SECURITY THROUGH:

ELEMENT MANAGEMENT SYSTEM (EMS)

Well-constructed 'craft' interfaces for simplicity of implementation and administration

DEEP PACKET INSPECTION FOR BOTH SIGNALING AND MEDIA

ACL/WHITE/BLACK LISTING

DTMF MANIPULATION

NAT TRAVERSAL (BOTH NEAR AND FAR END), TOPOLOGY HIDING

DOS/DDOS

Flood, resource hang/open transaction, crash/fuzz

SIP NORMALISATION – SIP TRUNK INTEGRATION MODULE (STIM)

CALL ADMISSION CONTROL

RFC 5853 COMPLIANT

ADVANCED UC SECURITY

Including protections against toll fraud, call walking, etc.

BEWARE - TOLL FRAUD

Billions lost by enterprises every year through inadequately secured SIP trunks, UC and VoIP applications

Applications

Editions Overview

BASIC EDITION

FOR SMALL BUSINESSES WITH BASIC TELEPHONY REQUIREMENTS

- Sub 20 users
- Single site

VERY COST EFFECTIVE AND EASY TO DEPLOY SOLUTION

- Enabled via system SD card
- Single site only
- Embedded voicemail
- Up to 6 port voicemail (with additional licence key)
- 1 voicemail box per user
- Up to 25 hrs of voicemail storage time
- Voicemail to email
- Auto-attendant
- Digital/analog phones only
- 64 party ad-hoc audio conferencing
- Web-based management
- Server-free solution
- Minimal programming
- Can be upgraded to Essential, Preferred and Advanced Editions

ESSENTIAL EDITION

FOR SMALL BUSINESS WHERE GOOD CUSTOMER SERVICE IS IMPORTANT

ENABLES ESSENTIAL MOBILITY FEATURES

- Licence-enabled
 - IP PBX functionality
 - 6 voicemail ports
 - Server-free solution
 - Up to 40 automated attendants
 - Up to 128 party audio conferencing
 - 4 remote H.323 extensions. Each endpoint enables VPN phone.
 - Dial By Name
 - Remote Voicemail Retrieval
 - Mobile twinning and one-X Mobile Essential Edition client for all users
 - Basic call control on mobile devices
- +** Adds Options: Receptionist phone.

PREFERRED EDITION

FOR SMALL BUSINESSES WHERE SUPERIOR CUSTOMER SERVICE IS IMPERATIVE

RESILIENCY IN MULTI-SITE ENVIRONMENTS

SUPERIOR MOBILITY FEATURES

- Essential Edition is a pre-requisite
- Up to 40 simultaneous calls for voicemail access
- Multi-level automated attendant:
 - Sophisticated routing options
 - Customer service features; time/day call routing and queue announcements
- Personal attendants with routing options and customised greetings
- Information on Hold: promotions, technical tips, new product launches, etc.
- 2 x 64 party conference bridges with PIN access
- No limit on VPN phones/system
- Built-in recording of incoming, outgoing and conference calls
- Supports multiple IP Office systems
- Ability to add user solutions – Desktop on mobile device, HD video conferencing, IM/presence, calendar mining, Outlook and Salesforce integration

- +** Adds Options: Power User, Office Worker, Mobile Worker, Tele Worker

SERVER EDITION

FOR MIDSIZE BUSINESSES

ALL THE BENEFITS OF PREFERRED EDITION

MAXIMUM SCALABILITY, BUILT-IN RESILIENCY AND CENTRALISED MANAGEMENT

- Linux- based
- All 'Preferred Edition' features
- Centralised management and user licensing
- Centralised management and administration of users, groups and system configuration.
- Resilient failover capabilities
- Scales to 2,000 users and 150 messaging ports per site
- System Status alerts the administrator to any potential issues

ADVANCED EDITION

FOR BUSINESSES REQUIRING CALL CENTRE CAPABILITIES

TO GATHER CUSTOMER INTELLIGENCE

Not supported on Server Edition

- PC Wallboard
- Real time status on agents
- Standard or customised reports
- Automated customer feedback surveys
- Self-help menus to allow customers to interact via voice control (IVR)
- Text To Speech (TTS)
- Flexible management of call routing rules, agents assignments and service capacity
- Password protected archived call recordings
- Customer alarm thresholds and notifications
- Visual Basic Scripting

 Adds Options: Agent, Supervisor

Small Community Networking (SCN)

Many small businesses are spread across a number of offices, each with the same communication requirements. To ensure high levels of productivity and customer service are maintained, SCN enables up to 32 IP Office systems to be networked together, enabling workers to seamlessly collaborate and communicate between disparate office locations.

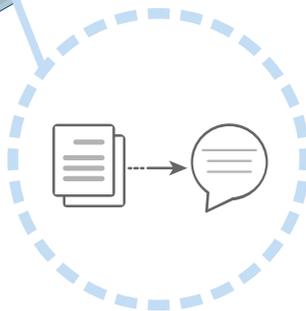

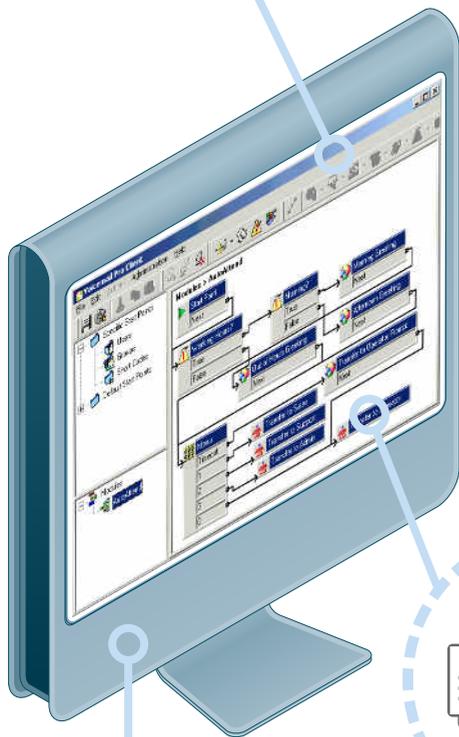

Advanced Messaging - Voicemail Pro

For new businesses, Voicemail Pro is included with IP Office Preferred Edition.

VOICEMAIL PRO

- Allows message handling for individuals or groups
- Provides information to callers
- Voicemail to email
- Inbound call assistance:
 - Delivers messages as soon as they are left
 - PIN code security
- 'Whisper Announce'
- Assisted Transfer: call returns to Voicemail Pro automatically should the called party be engaged or not answer within a pre-determined time
- Extended personal greetings based upon user availability
- Personal numbering & distribution lists
- Group messages broadcasts
- Audiotex and Auto-Attendant
- Queue Announcement
- Speaking Clock
- Automatic and on-demand call recording
- Voice forms/questionnaire mailboxes
- Tag information to a call and deliver it to an agent
- Visual Basic Script support
- Voicemail Pro modules:
 - Create sequences of actions to share between different call routing scenarios
 - Create a library of vertical voicemail applications
 - Easy dissemination to other IP Office voicemail sites
- Trigger external actions (e.g. office heating)
- Automatic detection and routing of Fax calls
- Intuity emulation mode
- 22 supported prompt languages
- Centralised voicemail within a multi-site IP Office environment
- Networked Messaging
- Up to 30 ports

TEXT-TO-SPEECH (PART OF VOICEMAIL PRO)

- Reads back information captured from a database
- Allows remote e-mail collection

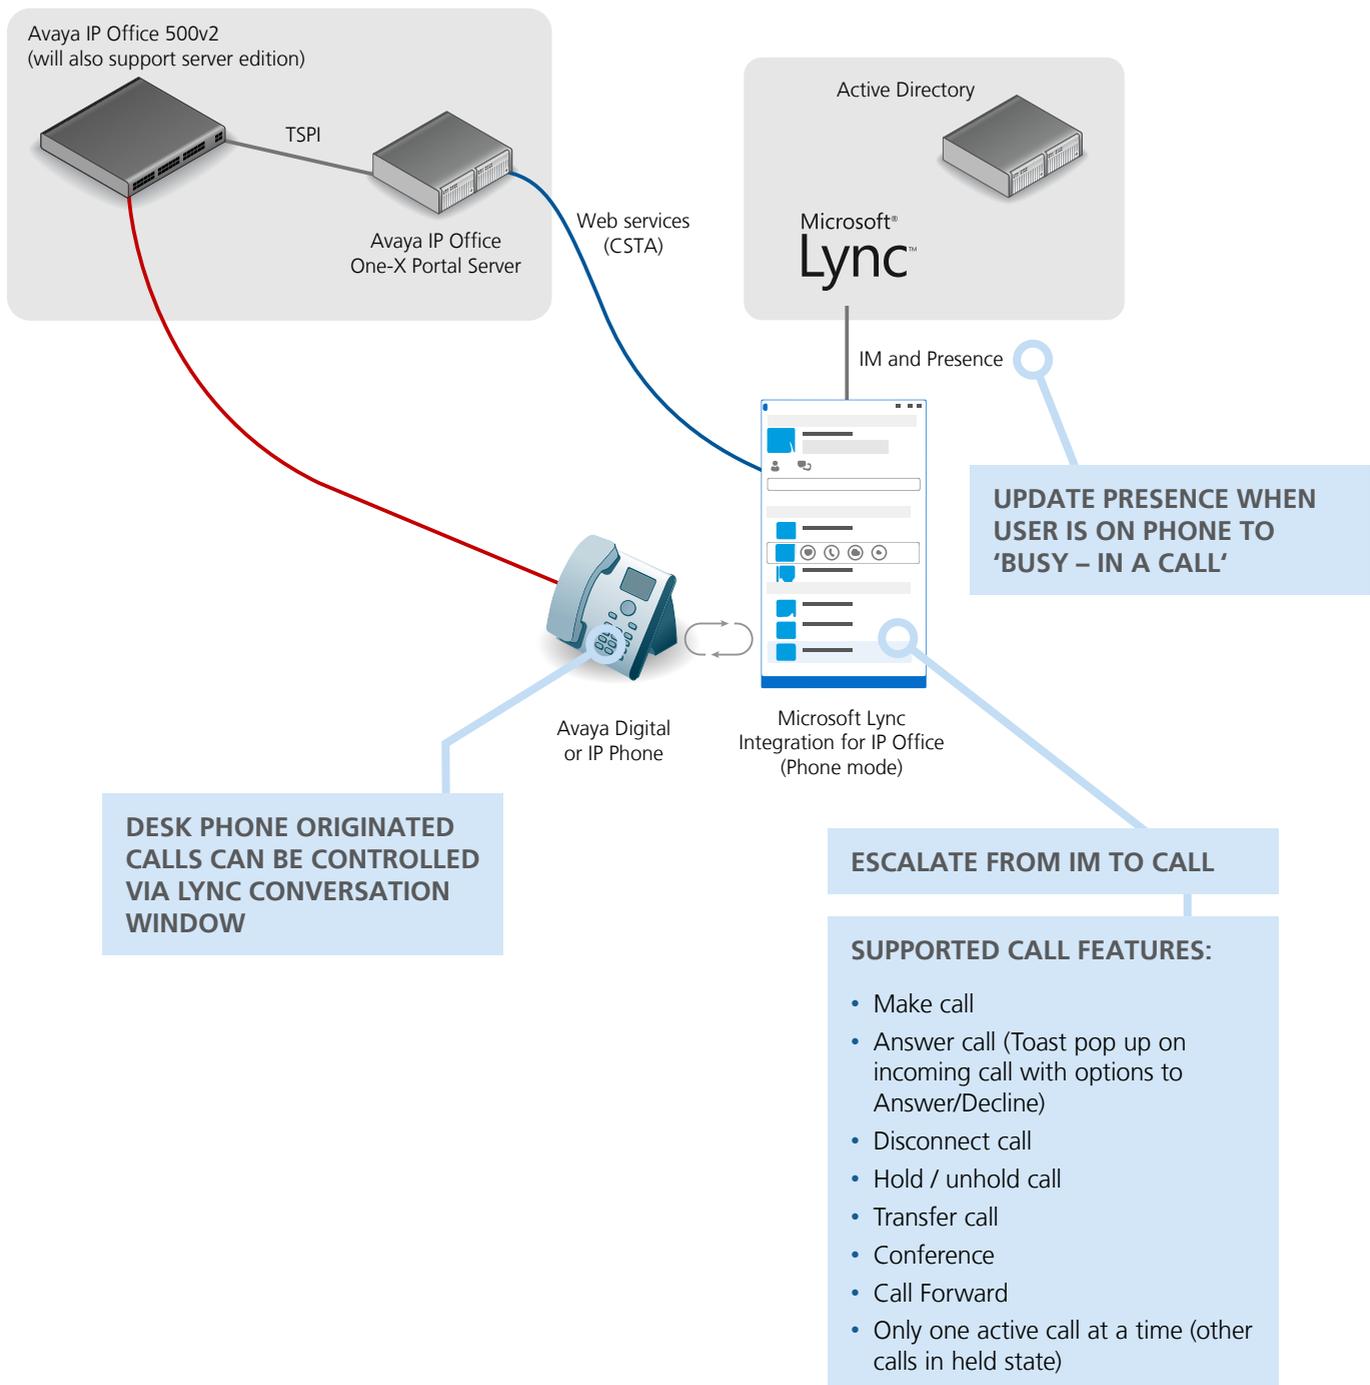

+ CONTACTSTORE (IN ADDITION TO VOICEMAIL PRO)

- Complements the IP Office voice recording capabilities
- Stores and catalogues the recordings

Microsoft Integration

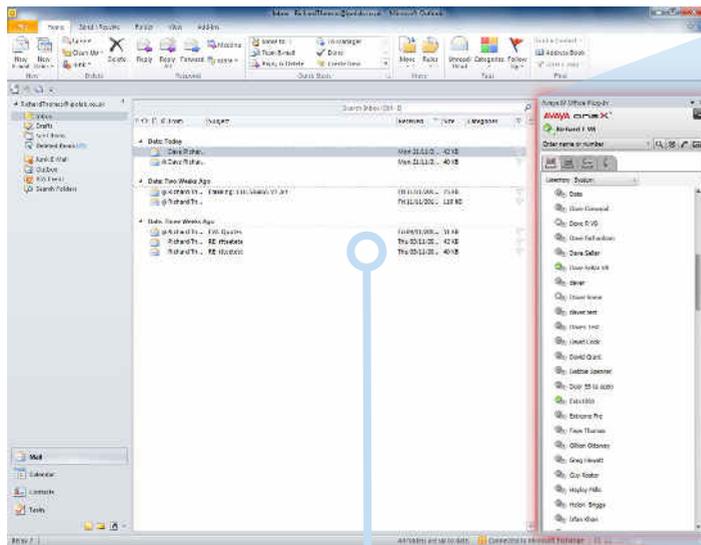

IP OFFICE LYNC PLUGIN

- Provides telephony capabilities for Lync via IP Office
- Works with Lync Server-side (on-premise) or Office 365 (hosted) deployments
- No need to invest in additional MS licences - Microsoft Standard CAL are sufficient
- Operates in 'Phone Mode' only (utilises CTI control over deskphone) and does not support any soft-client functionality

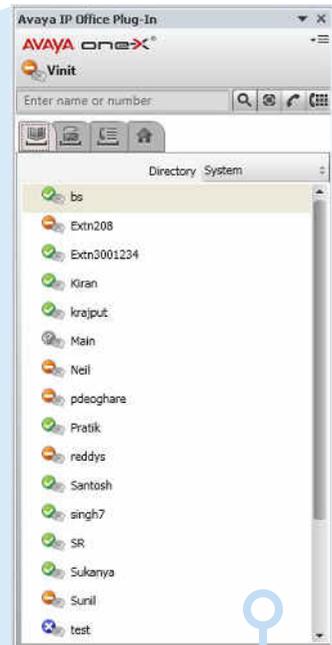

IP OFFICE OUTLOOK PLUGIN

- Embeds a subset of one-X Portal functionality into Microsoft Outlook
- Included with Office Worker, Tele Worker or Power User
- Improved productivity through more effective collaboration with the delivery of IP Office UC functionality direct to Outlook
- Better customer service through improved first time query resolution with Federated Presence (with Google), click-to-call and voicemail management in Outlook

VISUAL VOICEMAIL

EXPORT OUTLOOK CONTACTS TO ONE-X PORTAL SERVER

CHAT SUPPORT

PLUGIN WINDOW CAN BE COLLAPSED TO AVOID CAPTURING ENTIRE SCREEN

UC features continue to be available

INITIATE VOICE CALL FROM OUTLOOK

COMMUNICATION HISTORY WITH SELECTED CONTACTS

CALL OPTIONS ON CONTEXT MENU OF A CONTACT OR FROM THE OUTLOOK CALENDAR

INCOMING CALL NOTIFICATIONS WITH OPTIONS TO ACCEPT OR REJECT

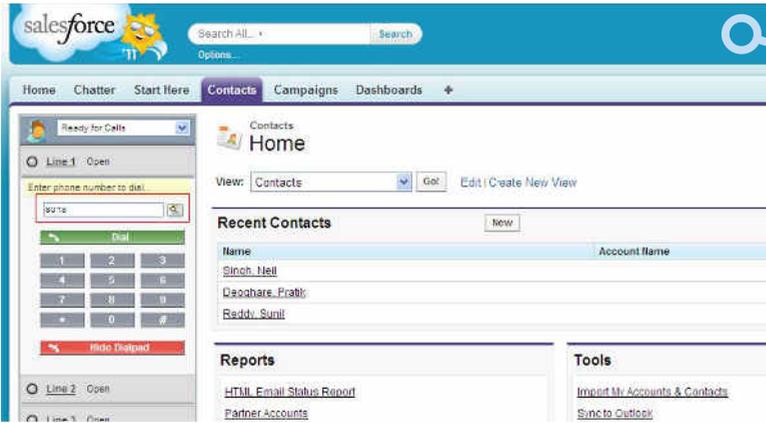

“ Since the majority of knowledge-based employees spend most of their time within Outlook composing and answering emails, scheduling appointments, and managing their contacts, integrating other forms of communications into that application makes enormous sense ”

Frost & Sullivan

Salesforce.com Plugin

Enables business users to have telephony call control direct from the Salesforce.com portal:

- Included with Office Worker, Tele Worker or Power User
- Instant access to Salesforce.com information means that employees are more professional and responsive to customer demands and do not have to waste time asking for basic customer details, helping reduce the call handle time

- MAKE AN OUTBOUND CALL
- HOLD/UNHOLD CALL
- CONSULTATIVE OR BLIND TRANSFER
- RECEIVE INCOMING CALL

Audio Conferencing

IP Office comes with an in-built audio conference bridge as standard, enabling businesses to eliminate the cost of out-sourced conference calls

- Improves productivity by cutting wasted travel time and enhancing morale
- Conferencing can ensure that meetings still go ahead even during events such as severe weather
- Quicker decision making through better information sharing - regardless of location

- WITH PREFERRED EDITION**
- Added security, control and conference resource reservation
- Dial-in prompts and PIN codes
- Conference call recording

- 2 X 64 CONFERENCE CALLS (OR COMBINATIONS OF) AS STANDARD
- AD-HOC OR SCHEDULED CONFERENCE CALLS
- INTUITIVE FEATURES
- CONTROL CONFERENCE CALLS VIA THE DESKTOP (OFFICE WORKER, TELE WORKER, POWER USER AND RECEPTIONIST)

Clients

Avaya Flare™ Experience for iPad and Windows

Collaboration software client which delivers an innovative interface for real-time communications

- Phone calls, instant messages, presence, enterprise contacts and e-mail, all from the same interface
- Contextual, people-centric design

IP DECT GATEWAY

APPLICATION SERVER MODULE FOR DECT R4 SOLUTION

- Runs applications such as messaging, central phonebook,

LDAP directory access, centralised device management and OAP interface provision

- Several variants available
- Fully installed and pre-loaded with licences

Analogue Terminals

Deliver a high degree of functionality as well as provide a lower cost alternative to system specific terminals.

- Particularly appropriate when using applications with Computer Telephony Integration (CTI)
- Compatible with caller display functionality
- Simple programming of IP Office can convert the numeric display into the company name associated with that number

INTERQUARTZ®

Interquartz is Avaya's chosen partner to manufacture analogue telephones for use on IP Office. Other models are available - please speak to your Westcon Account Manager.

Spectralink - DevConnect certified handsets

Spectralink is a global leader in wireless telephony solutions for the workplace. Office-based employees can roam freely throughout the workplace without sacrificing voice clarity and data coverage, resulting in improved customer service.

Spectralink have completed Avaya DevConnect testing for a variety of their wireless handsets, ensuring all Spectralink solutions are Avaya-Ready. Their mobile communication solutions are targeted to a wide range of sectors – including healthcare, retail, warehousing and manufacturing.

MOBILITY

Add mobility to improve productivity, communication and satisfaction for mobile workers

DIRECT INTEROPERABILITY

Eliminate need for an additional gateway that other solutions require to reduce complexity and costs

CUSTOMISED

Mix industry-customised wireless handsets to meet the individual need of each employee

INCREASED ROI

Reduce administration costs, reduce downtime and increase productivity

TESTED AND QUALIFIED

Full integration with Avaya Aura and IP Office

STREAMLINED ADMINISTRATION

Streamline administration by enabling your IT department to centrally administer, modify and control the entire solution

WIFI

Spectralink 84-Series
The enterprise-grade Voice over Wi-Fi solution (2.4 GHz or 5GHz)

DECT

Spectralink 7000 Portfolio
Cost-effective, feature-rich DECT wireless solution (1.8 GHz or 9GHz)

SPECTRALINK 84-SERIES

- Full duplex speakerphone, wideband audio and noise-canceling mic
- 802.11a/b/g/n Wi-Fi support for any VIEW supported WLAN
- Reinforced magnesium cage design
- Color display including 4 icons and a micro web browser
- Integrated push-to-talk
- Soft keys and navigation cluster
- 1000 Names Personal Directory
- Rubberised over molding
- Bluetooth or wired headset support with integrated mute and hookswitch control
- Snap-in integrated battery pack for 24/7 usage
- Also available, on the Spectralink 8452/8453 is an integrated 1D & 2D barcode scanner for data input applications

SPECTRALINK 87-SERIES

- Patent-pending ergonomic grip
- Resistant to dust, shock and liquids
- 802.11a/b/g/n
- HD voice and integrated full duplex speakerphone
- 3.5 mm 4-conductor stereo headset connector
- 800 x 480 pixel glass touchscreen
- Micro USB interface
- Android-based
- Personal safety features, including dedicated panic button and 'man down' capability
- Up to 8 hours talk time

Headsets & Speakerphones

The successful deployment of headsets can have an impact on the adoption of UC within an organisation. Key to positioning the correct headset is to understand the job function and working behaviour of the individual – one device does not fit all!

Headsets are often perceived as fairly straightforward. However, they have a massive impact on the user-experience, which directly impact business performance: productivity may be compromised due to ergonomic challenges or customer service issues may arise due to poor sound quality.

Headsets are quickly becoming an integral part of a worker's communication device set. Whether in the car, working from home or roaming the office, a headset is the single most important device that facilitates efficient communications with colleagues, customers and suppliers.

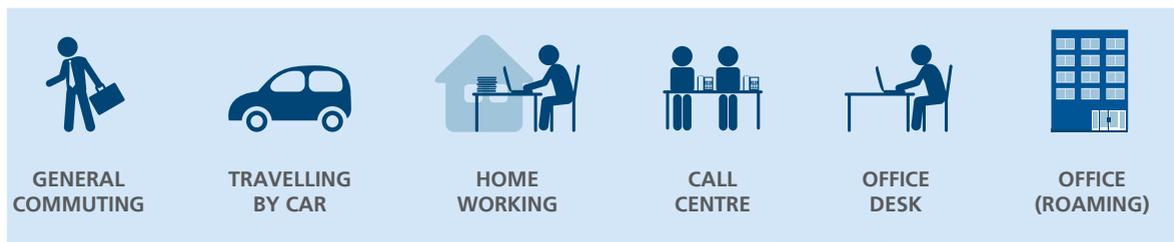

OVERCOMING THE HEADSET CHALLENGE!

WHAT HEADSET? TOP QUESTIONS TO ASK:

How to use the headset section of this guide?

Product Name

- Feature 1
- Feature 2
- Feature 3
- Etc.

VENDOR

Available / Non Available

USB

Industry standard connection enabling a headset to connect and get power directly from any computer. Delivers a digital audio signal into the headset, eliminating interference and maximising voice clarity. *Possibly requires an adapter cable.*

BLUETOOTH

Wireless technology standard for exchanging data over short distances from fixed and mobile devices, creating personal area networks with high levels of security. Can be used to connect headsets with phones, tablets and computers (either through built-in Bluetooth or USB receiver).

DECT

Digital communication standard for cordless phone systems, allowing for interference-free wireless operation to around 100m outdoors (less indoors when separated by walls). Low power usage allowing for several hours of talk time and considerable standby time.

CONNECTS TO A PHONE

Possibly requires an adapter cable (depending on vendor).

NOISE CANCELLATION

Reduces disturbing background noise such as traffic, wind or surrounding conversations.

TALK TIME
(in hours)

WIRELESS RANGE
(in metres)

EVOLVE Series

- Designed to improve concentration and conversations
- Premium noise-cancellation eliminates unwanted background noise in a noisy environment
- Connects easily to a PC via the USB-based control unit
- Intuitive controller with large buttons and LED indicators to pick up/end calls, control volume or mute
- Made for both music and voice

VARIANT DEPENDANT FEATURES:

- Connects to a smartphone/tablet via the 3.5 mm jack (EVOLVE 40 & 80)
- NFC technology & Bluetooth – 30 meter/100 feet wireless freedom (EVOLVE 65 UC)
- Active noise cancellation to eliminate unwanted low frequency background noise at the touch of a button (EVOLVE 80)
- Busy light indicating to co-workers that you are on a call (EVOLVE 40, 65 & 80)

- Superior sound with HD Voice to ensure clarity of conversations
- Noise-cancelling microphone technology filters out background noise for clearer calls and less repetition
- Superior hearing protection with Jabra SafeTone, to provide safety when on calls and comply with Control of Noise at Work
- Wind noise protection for clear calls outdoors
- Up to 7 hours talk-time and 15 days standby
- Height adjustable and rotatable speaker house for custom fit and comfort
- Power Save mode saves battery when not in use to avoid constant charging
- Stream music, podcasts and GPS directions with A2DP
- Choose between soft travel pouch variant, (Jabra MOTION UC) or hard case variant, (Jabra MOTION UC+), which converts to desk charging dock

SPEAK 410

- Connects to a softphone
- Ideal for one-to-one and small-group conference calls
- Superior sound with HD Voice to ensure clarity of conversations
- 360° microphone picks up sound anywhere within the room
- Slim and compact design with a travel case included, for portability when on the move
- User-friendly call controls for ease of use
- Just add a headset for private calls, if required
- Plug-and-play USB connectivity, no drivers to install

SPEAK 510

- Connects to a softphone, smartphone, tablet or headset
- Also connects wirelessly to tablets and smartphones via Bluetooth
- Ideal for one-to-one and small-group conference calls
- Superior sound with HD Voice to ensure clarity of conversations
- 360° microphone picks up sound anywhere within the room
- Up to 100m of wireless freedom allows for productivity when on calls
- Slim and compact design with a travel case included, for portability when on the move
- User-friendly call controls for ease of use
- Just add a headset for private calls, if required
- Up to 15 hours talk-time¹ to ensure no conference call is missed
- Plug-and-play USB connectivity, no drivers to install

Dongle included with 510+

Encore Pro

plantronics®

- Wideband audio for clearer conversations
- Ultra noise-cancelling microphone filters out background noise
- Low-sitting extendable microphone enables optimal mic positioning
- Reinforced, lightweight headband provides strength and durability
- Plush leatherette ear pads allow for hours of comfortable wear
- Elegant satin finish and featherweight design
- Quick Disconnect cord lets users walk away from their phones without removing the headset
- DA45 USB Adapter provides:
 - Plug-and-play USB connectivity for fast, simple setup
 - Easily accessible call controls, including call answer/end, mute volume +/-

Blackwire 300

plantronics®

- Intuitive, inline controls let you answer/end, mute and control the volume of PC calls with ease
- Smartly-placed indicator lights and helpful audio alerts give call, mute and volume status
- Simple plug-and-play USB connectivity
- Lightweight metal headband offers durability and a customisable, comfortable fit
- Convenient wearing styles available: hi-fi stereo or monaural design
- Wideband delivers heightened speech clarity, providing the best possible PC audio quality
- Dynamic EQ feature automatically adjusts audio for voice or multimedia use
- Noise-cancelling microphone reduces background noise
- Enhanced digital signal processing (DSP) provides more natural-sounding voice

Blackwire 435

plantronics®

- Modular design gives end users a choice of mono or stereo audio options and wearing styles
- Low profile design
- Durable, portable design easily tucks into travel case
- Call controls at your fingertips; call answer/end, mute, volume +/-
- Noise-cancelling microphone reduces background noise

- Wideband for best PC audio telephony
- Dynamic EQ stereo automatically adjusts for voice and multimedia use
- Noise-cancelling microphone filters out background noise
- Enhanced digital signal processing (DSP) technology provides more natural voice sound
- SoundGuard technology provides protection against audio spikes
- Folds flat and tucks into carrying case for use on the go
- Call controls at your fingertips; call answer/end, mute, volume +/-
- Connection to a desk phone via MDA200 accessory

Blackwire 700 Series

plantronics®

- Versatile UC headset that offers high-quality PC audio and seamless Bluetooth connectivity to mobile phones and tablets
- Smart Sensor™ technology answers a call by simply putting on the headset, or pause mobile device media playback by taking it off
- PC wideband, noise-cancelling microphone and hi-fi stereo sound (C720)
- Media streaming from a mobile device (A2DP)
- Dynamic EQ automatically optimises sound quality
- A detachable cable and integrated clothing clip provide in-office mobility with up to 10 hours of talk time.
- Ear cushions fold flat for storage in the durable, portable carrying case
- Call control across multiple softphones
- Battery meter conveniently displays headset battery life remaining in PC icon tray
- UC presence automatically updated when on a call; not only on PC calls, but also when on mobile calls (currently Microsoft Lync and Skype)

Savi Go

plantronics®

- One-touch multifunction call control for call answer/end/volume adjust/mute controls on one button
- Seamlessly switch between calls on your mobile phone and those received through your PC
- Wideband Audio
- In-use indicator light: Button lights up when phone is in use
- Extended boom with noise-cancelling microphone for clearer calls
- Convertible wearing styles (over-the-head or easy-fit ear loop) for customisable comfort and fit
- UC presence automatically updated when on a call

Savi 430

plantronics®

- DECT technology built-in to the USB adapter
- Wideband audio
- Excellent battery life with adaptive power usage for extended talk time.
- The DECT USB adapter has 180° articulation for optimal positioning & storage
- Call controls, including remote call answer/end with supported softphones
- Digital Signal Processing provides more natural voice sound
- Advanced wideband audio using *CAT-iq technology for high definition voice quality
- SoundGuard™ technology mitigates audio spikes
- Conference in up to three additional Savi headsets on a call for improved efficiency
- Noise-cancelling microphone filters out background noise
- UC presence automatically updated when on a call

Conference three Savi headsets

DECT technology in the USB adapter

Savi W440

plantronics®

- The world's first convertible DECT wireless headset system for mobile centric professionals using PC softphones and multimedia.
- World's Lightest DECT headset weighing only 22gm
- Ear loop, neckband or headband wearing styles
- Intuitive buttons for simple volume adjustment, dedicated mute functionality and call answer / end
- Easy magnetic docking to ensure headset is properly docked and charging
- UC presence automatically updated when on a call
- *Unlimited talk time using hot swappable batteries

Only 22gm

DECT built into USB Adapter

Variety of wearing styles

Savi 700 Series

plantronics®

- Connects to a desk phone, softphone or mobile phone
- Automatically routes mobile calls to the mobile phone or headset
- Transfer audio between headset and mobile phone with a press of a button to take the mobile call out of the office
- Headset answer/end/mute/flash control across multiple softphones
- UC presence automatically updated when on a mobile or desk phone calls
- Battery meter conveniently displays headset battery life remaining in PC icon tray
- *Talk time:
 - W710, W720 - up to 9 hours
 - W730 - up to 6 hours
 - W740 - up to 7 hours
 - W745 - unlimited

W475

W710/720-M

W730-M

Voyager Pro HD

plantronics®

- Smart Sensor™ technology knows whether to send calls to mobile phone or headset
- Motion sensors: put it on to answer a call
- Eliminates accidental dialling by locking call button when headset is not worn
- Pauses streaming audio for calls or when the headset is taken off
- Plantronics MyHeadset™ app gives you tips, tricks and tools for Android-based phones
- On-screen battery meter for iPhone and Android 3.0 or higher smartphones
- Experience brilliant, HD streaming audio plus natural, clear calls
- UC presence automatically updated
- Voice alerts announce talk time, volume, connection and more
- Ergonomic all-day fit
- Triple tap of Call button dials Vocalyst™ voice and text service
- Two noise-cancelling microphones on a boom

Put headset on answers a call

Comfort-tested for extended wear

HD Audio and 3 eartip sizes

Two-noise cancelling mics

USB Bluetooth Mini-adaptor

Voyager Legend

plantronics®

- Tap the Voice button on the mic boom and use voice control to check battery level, connection status, and more. Ask "What can I say?" to hear a list of voice command options
- Accesses contact details in phone to announce who's calling and then waits for "Answer" or "Ignore"
- Plantronics' best noise and wind cancelling formula: 3 mics + 3 layers of wind protection
- Smart Sensor™ technology knows whether to send calls to mobile phone or headset
- Eliminates accidental dialling by locking call button when headset is not worn
- Protected against sweat and moisture damage by P2i technology
- Motion sensors: put headset on to answer a call and pauses streaming audio for calls or when the headset is taken off
- Plantronics MyHeadset™ app gives you tips, tricks and tools for Android-based phones
- On-screen battery meter for iPhone and Android 3.0 or higher smartphones

Calisto 240

plantronics®

- A handset design and phone features, ideal for PC telephony users who are in the office or on-the-road and prefer a familiar phone interface
- An easy-to use-dial pad and call answer/end, volume and mute controls enable seamless PC call management
- LCD screen for easy call ID viewing and menu navigation
- Wideband and noise-cancelling microphone offer the best PC audio available
- Built-in, full duplex personal speakerphone offers a high quality audio experience and hands-free convenience
- Slim, portable design easily fits into laptop bag
- Powered by USB, no batteries are required
- Includes protective carrying pouch

Calisto 620

plantronics®

- Portable wireless UC speakerphone that instantly transforms a laptop or smartphone into a high-quality conferencing device
- Small and lightweight
- Simplify call management with an easy interface for answer/end, mute and volume
- High-quality travel case
- 360° full duplex audio and Bi-directional microphones that activate in the direction of the speaker's voice
- PC wideband audio and Digital Signal Processing (DSP) reduce drop-outs and echo with Acoustic Echo Canceller
- Integrated A2DP allows streaming media from a mobile device
- Battery meter conveniently displays headset battery life remaining in PC icon tray
- Headset control panel allows for customisation of settings, including call notification and related options
- UC presence automatically updated when on a PC or mobile call (Microsoft Lync and Skype)

Calisto 830

plantronics®

- Connects and seamlessly switches between calls from PC, mobile and home phone (analogue connectivity available)
- A 2.4" colour display and a touch-sensitive dial pad for easy caller ID viewing, dialling, answering, switching and muting across devices
- For privacy, use with Bluetooth or corded headsets/headphones (3.5 mm)
- Premium, rich-sounding full duplex speakerphone
- Wideband audio coupled with advanced noise cancellation technology
- Wireless microphone offers unparalleled voice transmission and freedom of movement (sold separately)
- Remote answer/end/mute control
- Enables 360-degree small group conferencing when placed flat on a table

Management

Systems Status Application - SSA

Diagnostic tool for system managers and administrators to monitor and check the status of IP Office systems.

REAL-TIME CALL STATUS INFORMATION

REAL-TIME VIEW OF SYSTEM RESOURCE SUCH AS VCM OR VM PORTS

QOS INFO FOR IP TRUNKS (SCN, H.323, SIP)

COMPLEMENTS SNMP AND EMAIL ALARMS

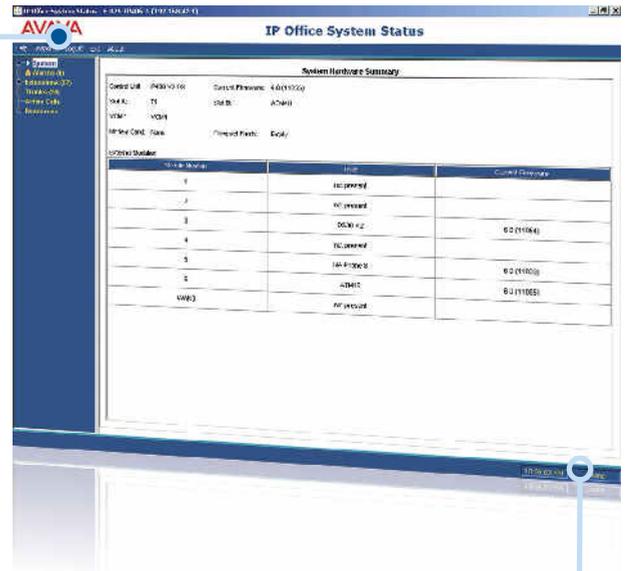

EVENT TRACES PER CALL/TRUNK/EXTENSION

REPLACES 'CALL STATUS' APPLICATION AND COMPLEMENTS MONITOR APPLICATION

ALARMS, TRUNK UTILISATION AND ERROR HISTORIES

ALARMS STORED IN IP OFFICE

No need for local PC

INCLUDED AS STANDARD

IP Office Web Manager

Intuitive and user-friendly browser-based management tool designed to simplify installation & maintenance processes for IP Office.

Avaya Video

Conference Room Systems

Scopia HD (high definition) video conferencing room systems incorporate the latest state-of-the-art video technology with capabilities mandatory for today's room system deployments.

SCOPIA XT5000 WITH IP OFFICE

- Highly secure business quality video
- Works with room systems
- Robust mobile client capabilities
- Incremental revenue via expanded, high-margin UC offer
- Quick & easy to sell, install and service
- Re-energise your customer base with an upgrade trigger

- Essential Edition or higher
- IP Office 8.1FP1 (SP3)
- Registers as Avaya SIP endpoint, no 3rd party SIP licence needed
- IP Office video soft client not supported

SCOPIA XT5000

- Intuitive and easy-to-use
- Enhanced with Scopia Control for Apple iPad
- Second video stream (additional camera or data sharing)

Screen not included

PTZ CAMERA

- Dual 1080p/60fps live video and content
- 10x optical zoom (40x digital)
- Wide-angle capability (for details or entire group)

CD-QUALITY, 20 KHZ AUDIO

3-WAY BEAM FORMING DIGITAL MICROPHONE

Isolates the speaker from the noise

SIMULTANEOUS H.264 HIGH PROFILE AND SCALABLE VIDEO CODING (SVC)

EMBEDDED 9-WAY MULTI-PARTY MCU

SCOPIA XT MEETING CENTER

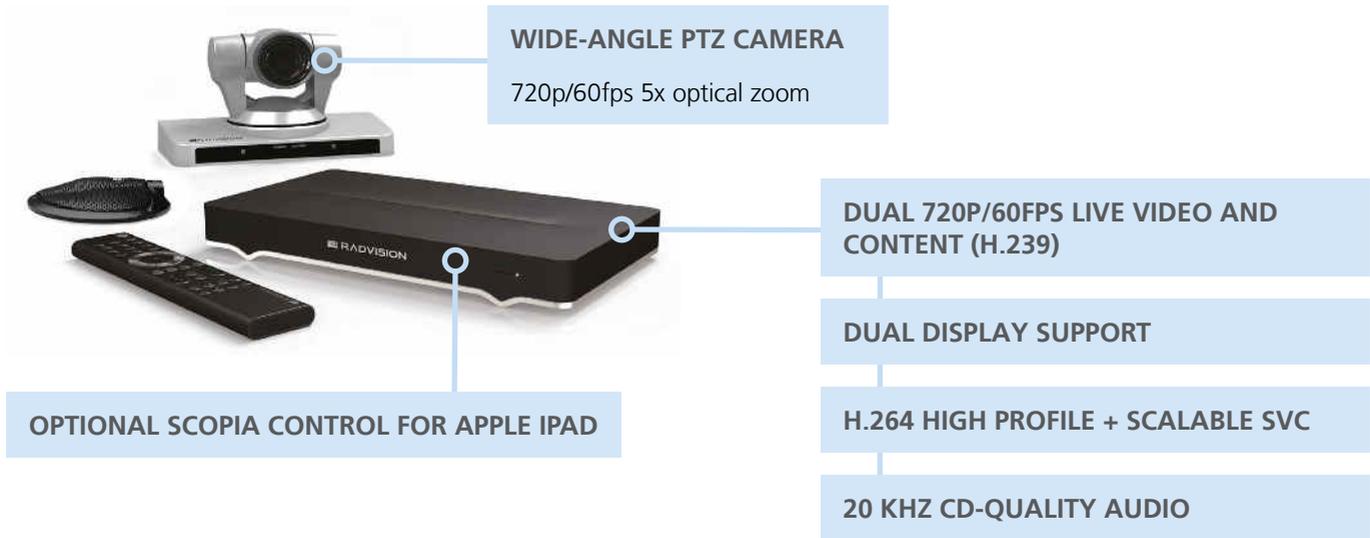

SINGLE OR DUAL 55" 1080P DISPLAYS IN A SPECIALLY DESIGNED CART

POWERED BY SCOPIA XT5000

SCOPIA XT4200

Offers outstanding value and cost-effective HD video communications specifically designed for the needs of smaller and mid-sized conference rooms, as well as customers who don't require all the high-end features offered in the Scopia XT5000.

SCOPIA XT1200 ROOM SYSTEM

SCOPIA XT TELEPRESENCE PLATFORM

- Lifelike, immersive experience
- Customisable to the unique requirements of individual rooms and customer needs
- Cost-effective

SCOPIA CONTROL

Apple iPad application for control of Scopia XT room systems and telepresence:

- Highly intuitive user interface
- Cost-effective (no need for an expensive, proprietary device)
- Integrated conference room calendar and enterprise directory, making it easy to join meetings and invite others

Desktop Video Communications

SCOPIA XT EXECUTIVE 240

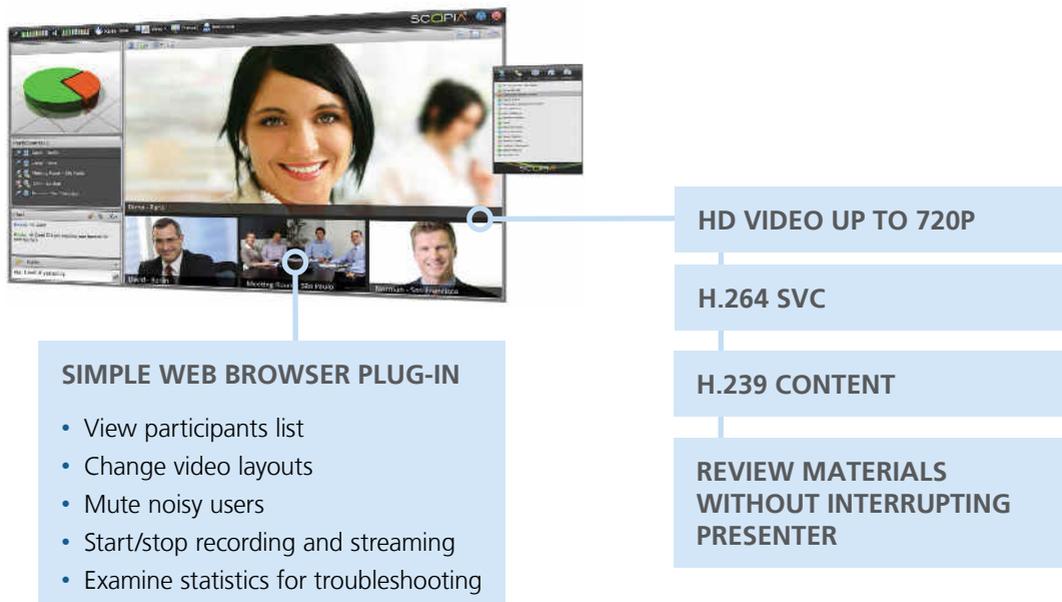

All-in-one desktop video conferencing system and PC display

SCOPIA DESKTOP CLIENT

Extends a room system application to remote and desktop users for voice, video and data communications

- Standards-based video conferences up to 28 participants
- Connects to telepresence and UC clients through Scopia infrastructure
- Microsoft Office and IBM Lotus Notes integration
- PC and Mac support
- Centrally managed, distributed and deployed without complex licensing fees or installation issues
- Automatic firewall traversal allows anyone to participate regardless of where they are

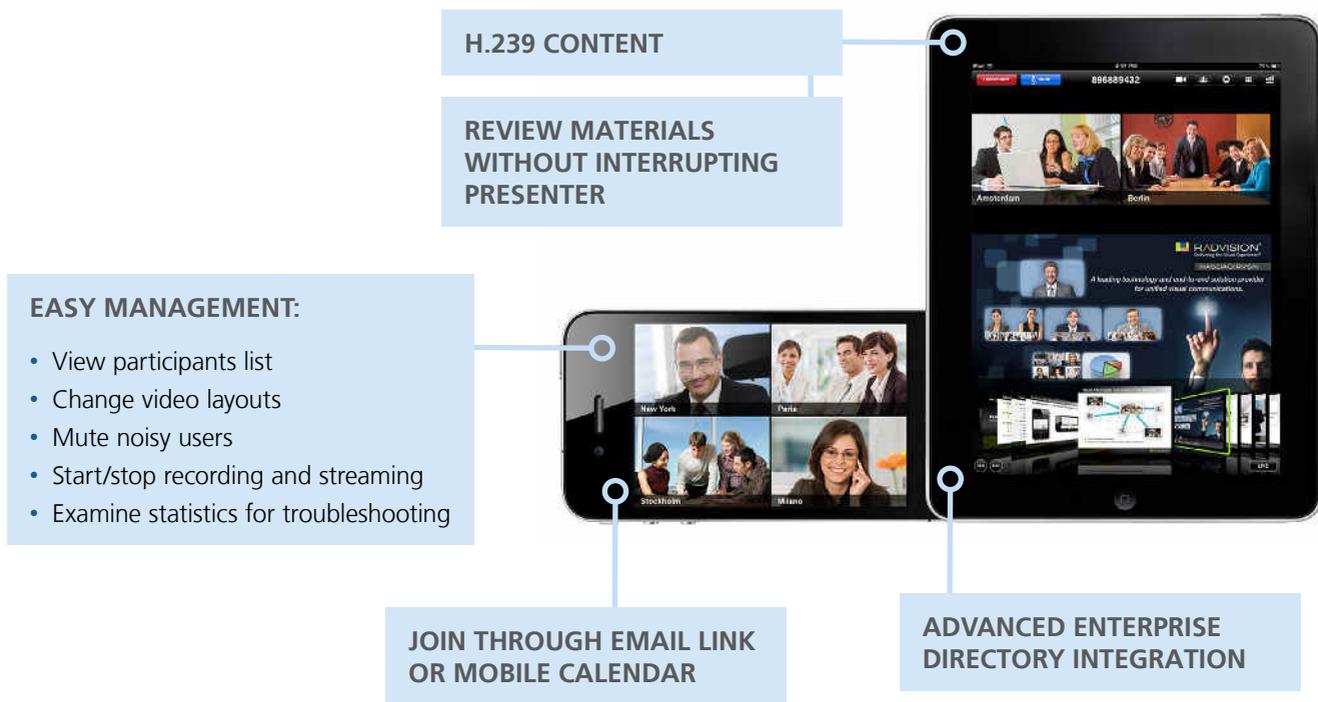

Mobile Communications

SCOPIA MOBILE

Enterprise-grade mobile video application enabling HD video conferencing and data collaboration with the nearly two million installed standards-based video conferencing and telepresence systems worldwide.

- Standards-based video conferences up to 28 participants
- Connects to telepresence and UC clients through Scopia infrastructure
- Available for Android and Apple iOS (smartphones and tablets)
- Mobile Broadband and Wi-Fi Capable (NetSense bandwidth prediction and adaptation)

Video Management

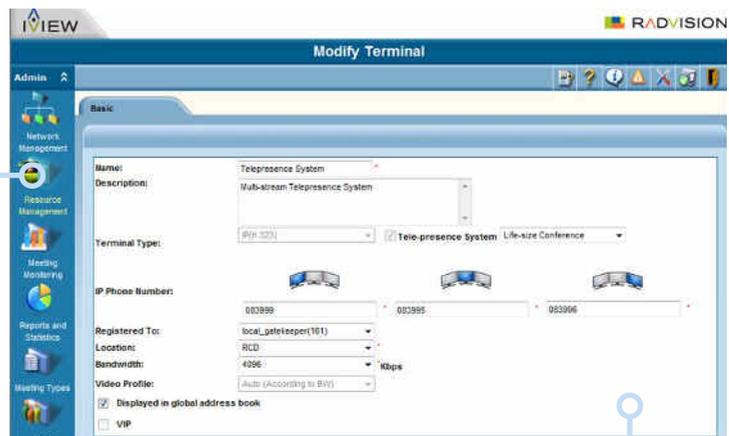

SCOPIA MANAGEMENT SUITE

Single access point for managing all video conferencing devices including third-party endpoints, infrastructure devices such as MCUs and gateways, and call control applications such as gatekeepers and SIP agents:

- Avaya , Cisco/Tandberg, LifeSize, Polycom and Sony endpoint management
- Supports both distributed and centralised deployments
- Multi-tenant for service providers
- Integration with:
 - Microsoft Active Directory, Outlook, Lync
 - IBM Lotus Domino, Notes and Sametime

MONITOR, REMOTELY CONFIGURE, CONTROL AND UPGRADE DEVICES

EASILY MAINTAIN AND DISTRIBUTE ENDPOINT VIDEO ADDRESS BOOKS

CONVENIENT SCHEDULING AND RESOURCE RESERVATION

“VIRTUAL MCU”

High scale, distributed deployments with virtual conferencing rooms

SIMPLE AND COMPREHENSIVE VISUAL REPORTS

MANAGE AND MONITOR VIDEO NETWORK TO ENSURE EFFICIENT BANDWIDTH UTILISATION

SCOPIA ECS GATEKEEPER

ECS provides gatekeeper functionality and everything required to simply and easily define, control, and manage voice, video and data traffic over IP networks – no matter how large or complex:

- Ensures optimal bandwidth utilisation to deliver carrier-grade, best quality call completion and collaborative video communications over any network and any protocol.
- Built for service provider reliability with hot standby functionality for delivering 7x24 service

FULL H.323 GATEKEEPER

SUPPORTS UP TO 2,000 CALLS AND 10,000 SEATS

ADVANCED CALL FALLBACK

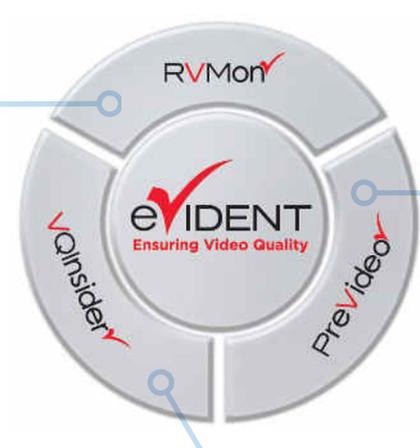

CREATES EASY PSTN-LIKE DIALLING FOR VIDEO CONFERENCING

CALL FORWARDING POLICIES PER DIALLED NUMBER

EVIDENT

Intelligent monitoring solution composed of three applications:

- Real-time voice and video monitoring
- Quality measurement and analysis
- Proactive improvement of call quality

REAL TIME QOE MONITORING

Continuous collection and analysis of audio and video metrics throughout the entire installation

DETERMINE IMPACT OF VIDEO

Emulates video systems and can simulate hundreds of calls simultaneously

IN-DEPTH MEASUREMENT AND ANALYSIS OF USER EXPERIENCE

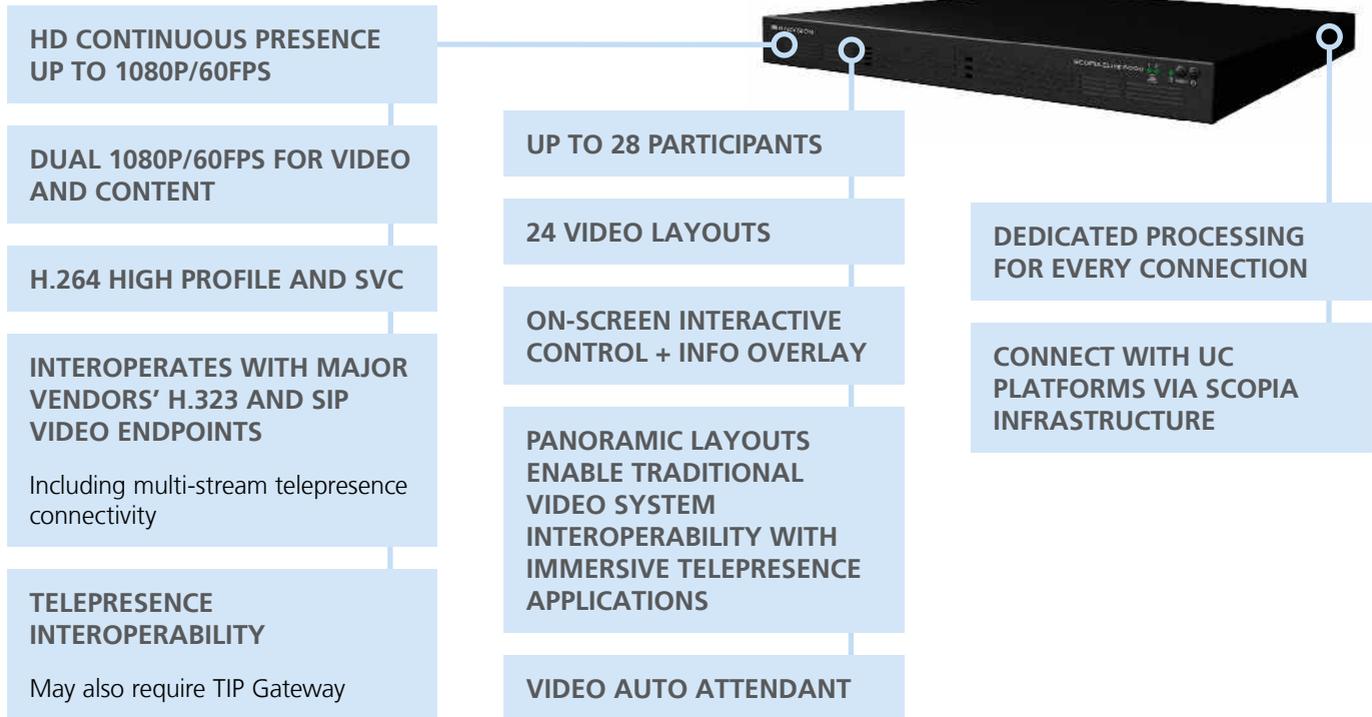

Determines cause of quality issues and improvement options based on detailed reports from non-intrusive examination of network and audio/video codec parameters

Video Infrastructure

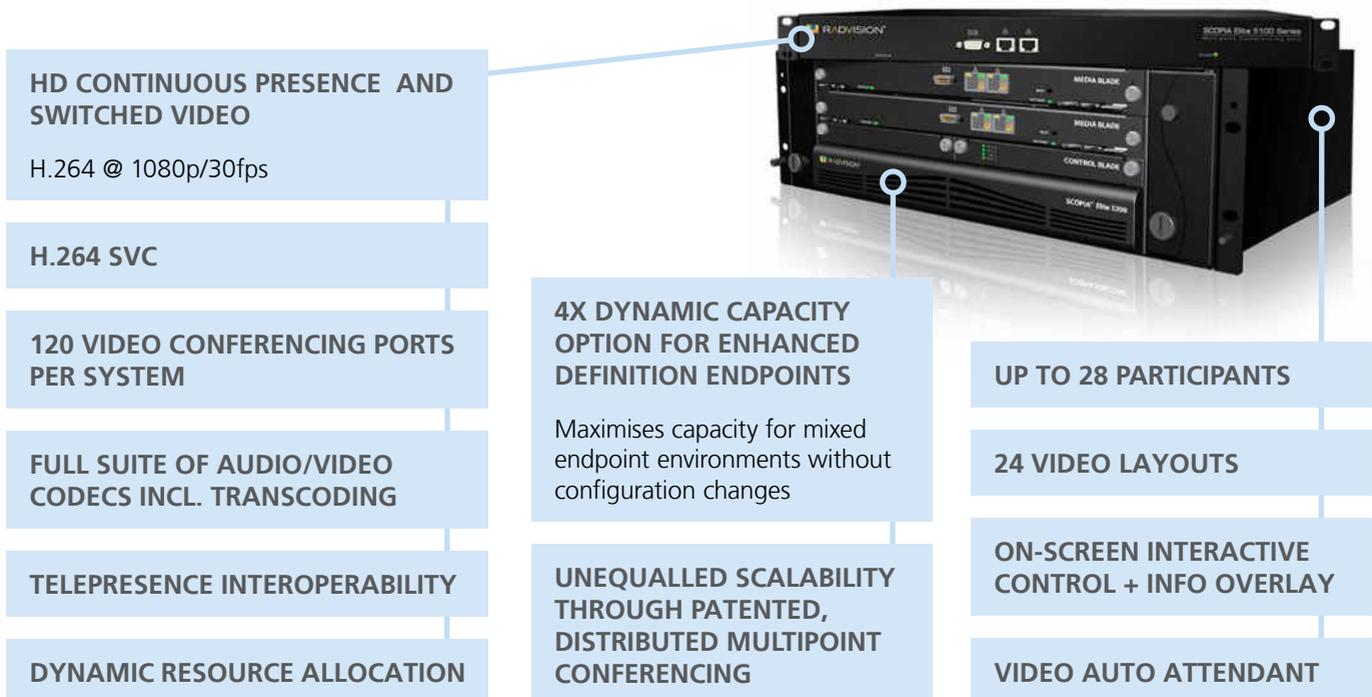

SCOPIA ELITE 6000 SERIES MCU

Hybrid architecture with powerful video accelerator components to deliver unmatched density and minimise the power and rack space required.

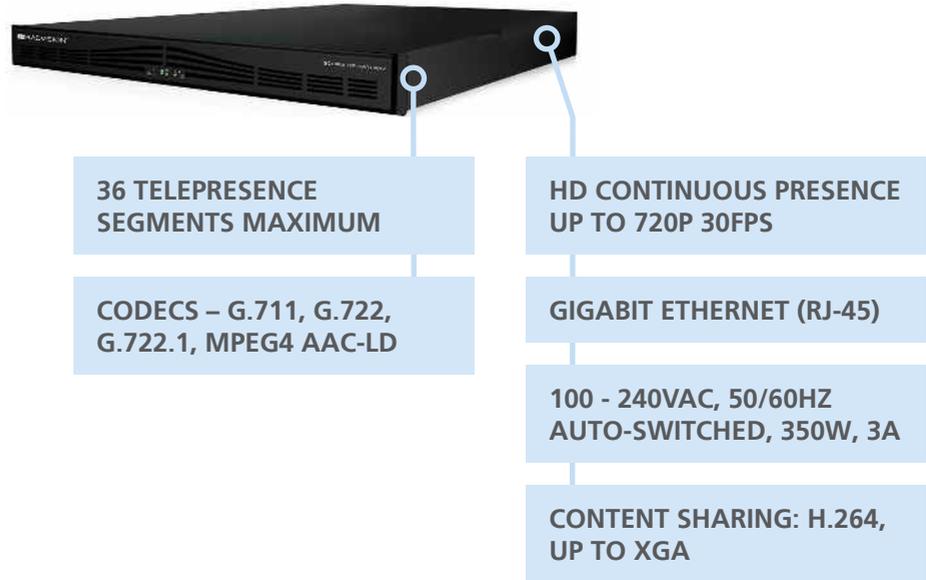

SCOPIA ELITE 5000 SERIES MCU

Can be configured for a range of HD continuous presence ports to suit a variety of applications and budgets

SCOPIA TIP GATEWAY

Scopia Elite MCUs in conjunction with the Scopia TIP Gateway provide a truly interoperable, multi-vendor, multi-stream immersive telepresence conferencing solution. This enables multi-party communications between different vendor's telepresence systems in addition to standards-based video conferencing endpoints.

TELEPRESENCE INTEROPERABILITY

CONNECTS TO STANDARDS-BASED VIDEO CONFERENCING SYSTEMS AND LEADING UC CLIENTS

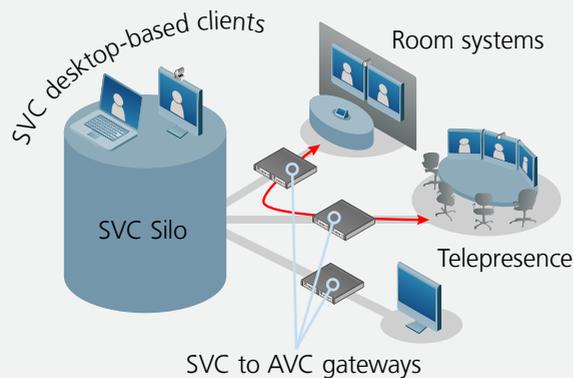

UP TO 12MBPS VIDEO BANDWIDTH

ANY MIX OF VIDEO SEGMENTS

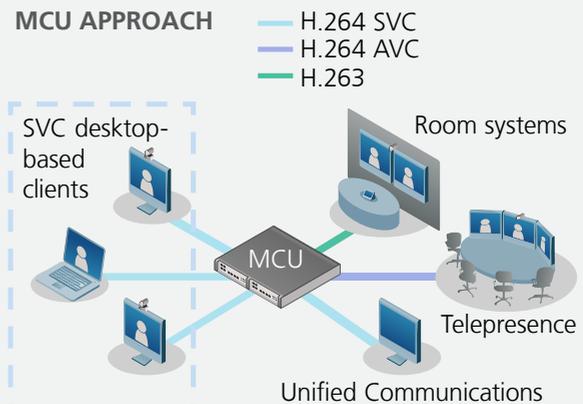

TELEPRESENCE, HD & SD SYSTEMS IN SAME CONFERENCE

OPTIMISED SYSTEM LAYOUTS

GATEWAY APPROACH

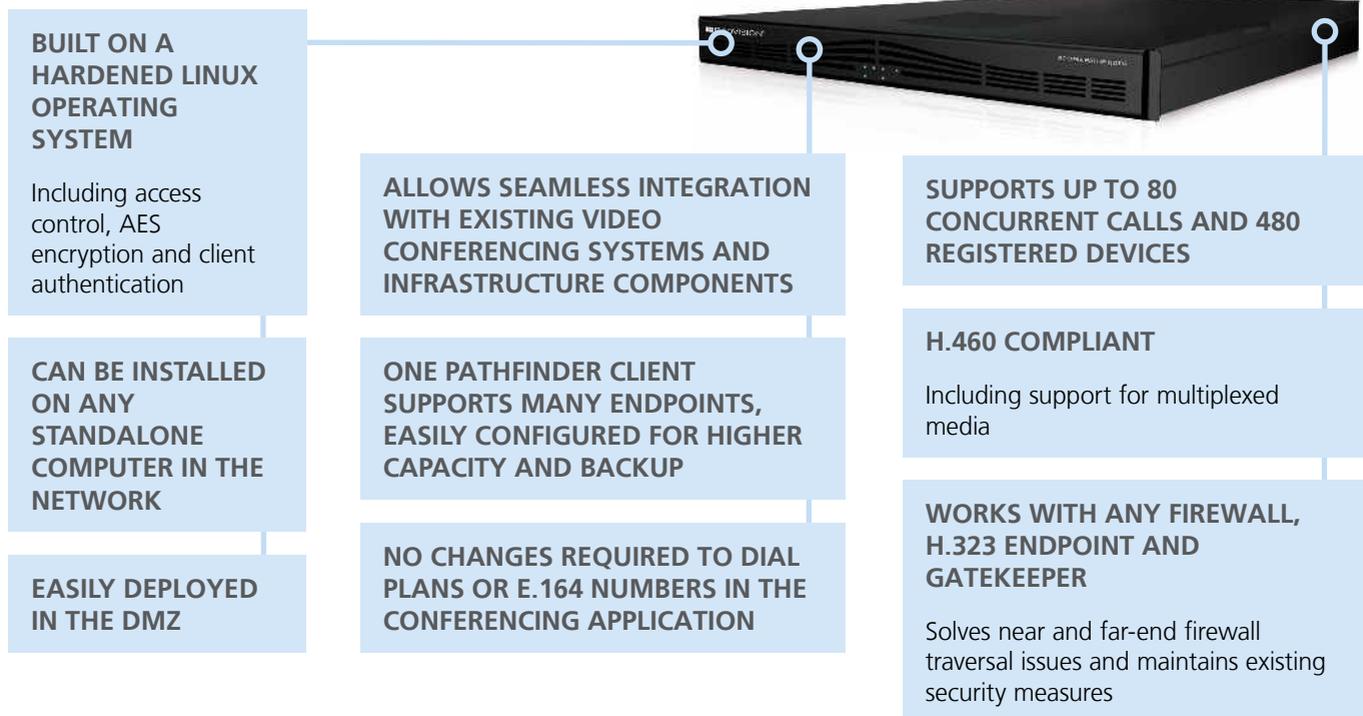

MCU APPROACH

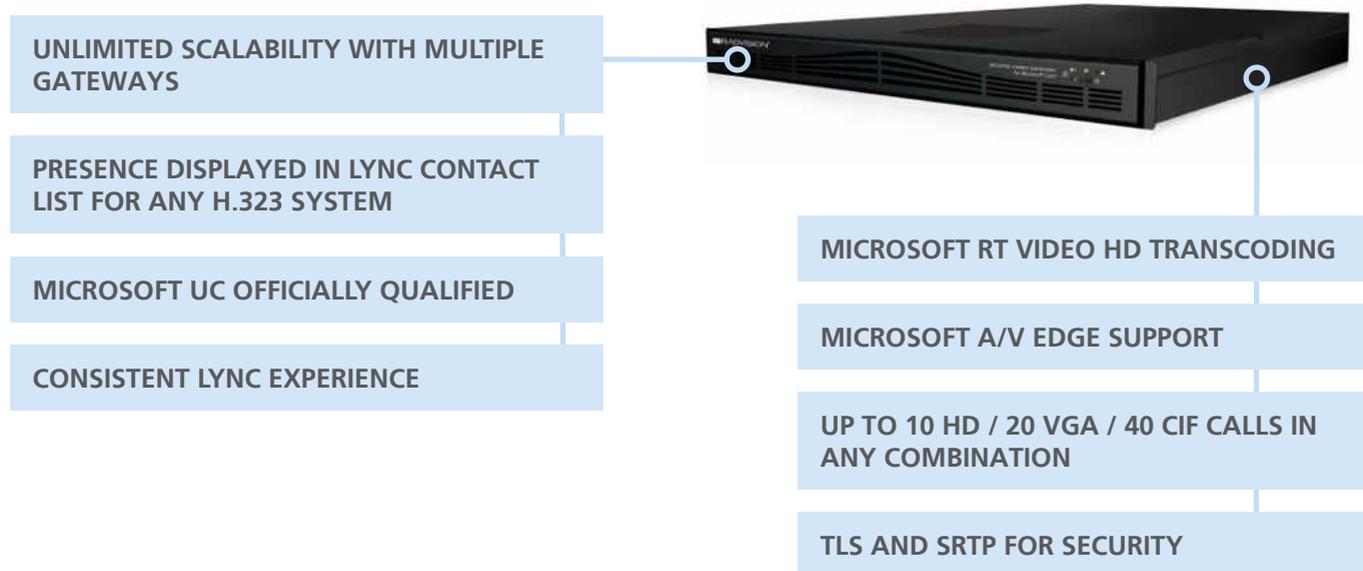

SCOPIA PATHFINDER FIREWALL TRAVERSAL

Complete firewall and NAT traversal solution enabling secure connectivity between enterprise networks and remote sites

SCOPIA VIDEO GATEWAY FOR MICROSOFT LYNC

Provides connectivity for Lync to standards-based video conferencing solutions, allowing users to realise the benefits of Lync in conjunction with their existing deployments of room-based video conferencing systems, telepresence systems and infrastructure.

SIP GATEWAY

Extends the reach of IBM Sametime by providing connectivity and interoperability with standards-based video conferencing and telepresence systems and infrastructure.

Also enables connectivity with new visual communication solutions such as telepresence and video on mobile devices in support of BYOD initiatives.

G.722, G.711 AUDIO

H.264, H.263 VIDEO

SIP ICE, IBM STUN / TURN, H.460 FIREWALL TRAVERSAL

TLS, SRTP, H.235 AES ENCRYPTION BETWEEN SIP AND H.323 NETWORKS

EACH SYSTEM SUPPORTS UP TO 60 CALLS

UNLIMITED SCALABILITY THROUGH MULTIPLE GATEWAYS

REMOTE WORKERS USING SAMETIME CAN EASILY CONNECT TO VIDEO CONFERENCING SYSTEMS ON THE CORPORATE NETWORK WITH FIREWALL AND NAT TRAVERSAL

SCOPIA GATEWAY

Provides seamless connectivity between different networks and standards to deliver feature-rich, reliable, multimedia conferencing and collaboration.

CONNECTING IP VIDEO CONFERENCING NETWORKS WITH ISDN AND PSTN NETWORKS

DISTRIBUTED OR CENTRALISED SCALABLE CONNECTIVITY

AUTOMATIC RECOVERY OF CONNECTIONS AND RESOURCES

HIGHLY COMPATIBLE WITH STANDARDS-COMPLIANT ENDPOINTS, GATEKEEPERS AND MCUS

EASILY INSTALLED (PLUG AND PLAY)

ISDN PRI MODELS SUPPORT UP TO 2 PRI T1/E1 AND UP TO 4 BRI

V.35/RS-449/EIA-530/EIA-530A MODEL AVAILABLE

H.323 OVER IP

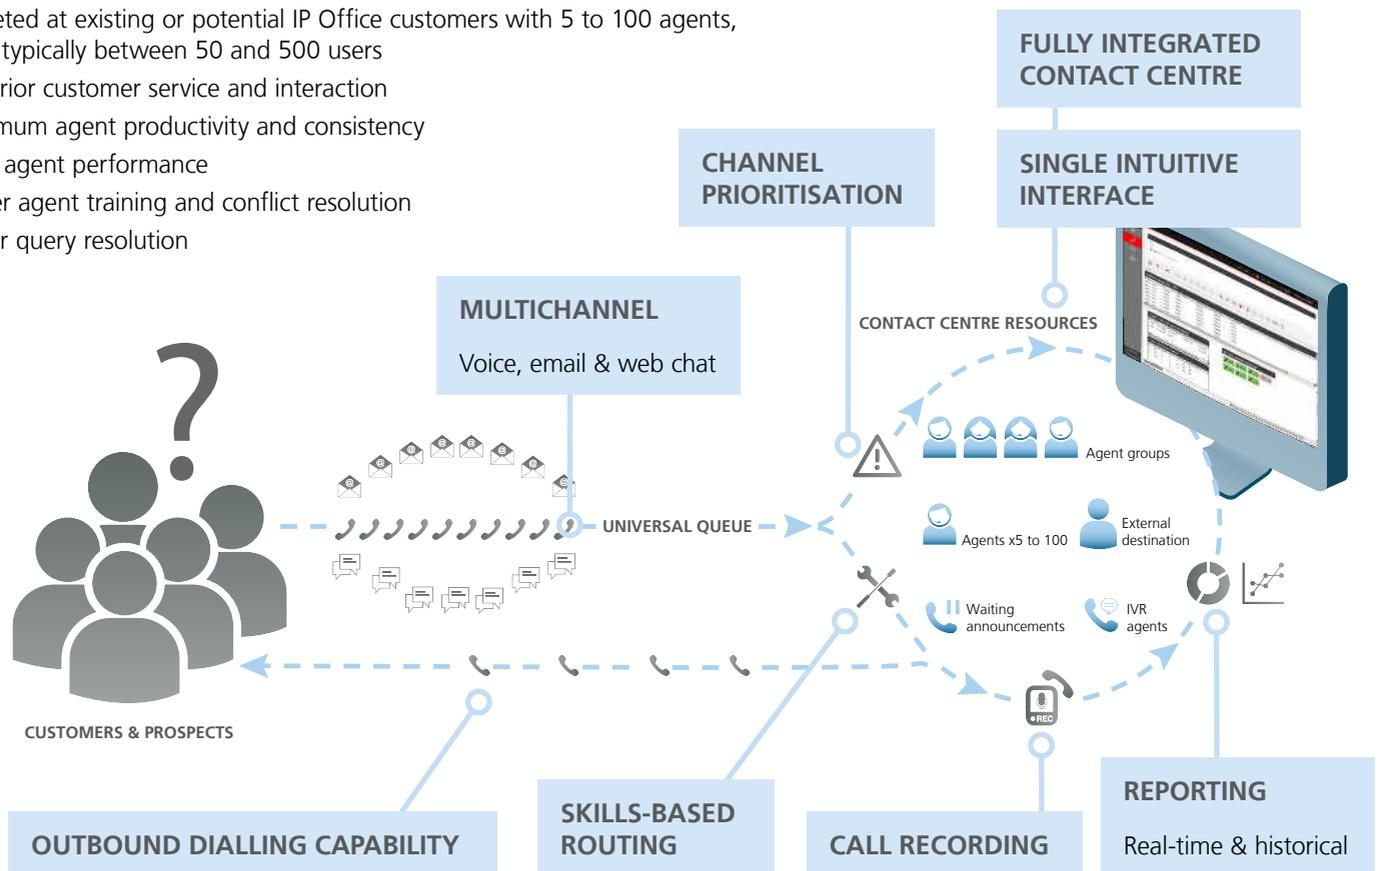

H.320 OVER ISDN OR V.35/RS-449/EIA-530/EIA-530A

Contact Centre

IP Office Contact Center

Multichannel contact centre functionality and simplicity for medium-sized companies where customer service is important

- Targeted at existing or potential IP Office customers with 5 to 100 agents, with typically between 50 and 500 users
- Superior customer service and interaction
- Optimum agent productivity and consistency
- High agent performance
- Better agent training and conflict resolution
- Faster query resolution

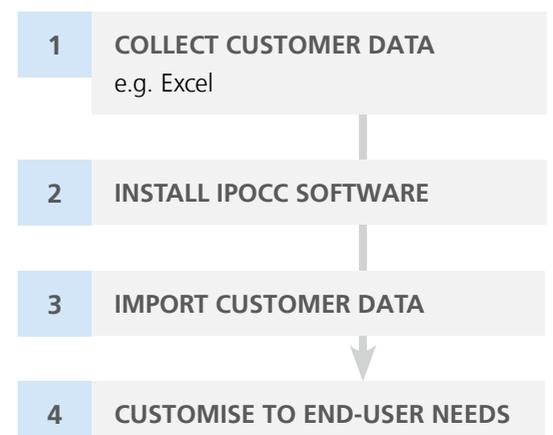

DEPLOYMENT

Pre-requisites:

- IP500v2 (R9.0.2)
 - Preferred Edition
 - Application Server with 2 HDD running VM Pro & Contact Recorder
- Server Edition (R9.0.2)
 - Server Edition licence
 - 2 x HDD or additional server for Contact Recorder (voice storage)
- Windows 2008 R2 or 2012 R2 OS Licence (if deploying in VMWare environment – VMWare ESXi5)

Fast and simple installation:

CAPACITIES

- IP500v2 (R9.0.2)
 - Up to 30 active/logged-in agents
 - Up to 150 configured agents
- Server Edition (R9.0.2)
 - Up to 100 active/logged-in agents
 - Up to 500 configured agents
- 100% recording of all agent calls (when deployed with VM Pro and Contact Recorder)

SERVICES/IPOSS

IPOSS is mandatory for IPOCC and should be quoted with EVERY IPOCC solution.

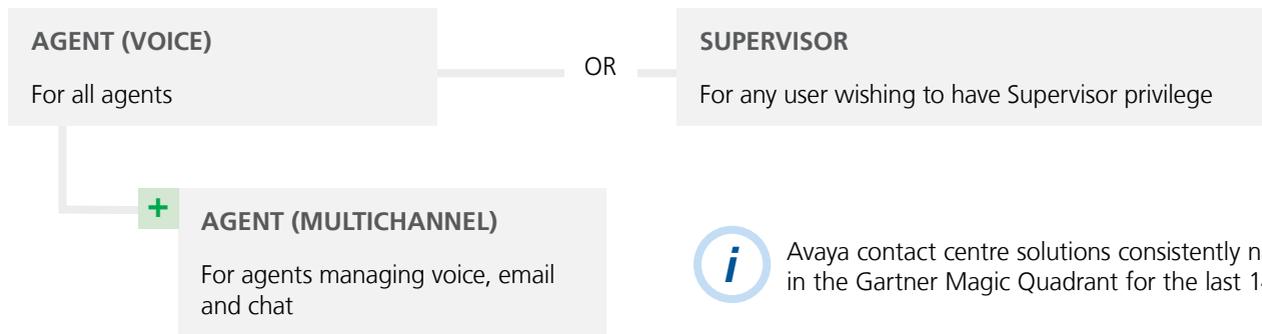

CERTIFICATION REQUIREMENTS

SELL	INSTALL
1 x APSS for IPOCC	1 x ASPS in IPOCC

LICENCE REQUIREMENTS

Avaya contact centre solutions consistently named a leader in the Gartner Magic Quadrant for the last 14 years.

Contact Center Select

Multichannel contact centre functionality for medium-sized companies where customer service is a key priority

- Targeted at existing or potential IP Office customers with up to 250 agents, with typically up to 2000 users
- Superior customer service and interaction across multiple channels
- Optimum agent productivity and consistency
- High agent performance
- Better agent training and conflict resolution
- Faster query resolution

DEPLOYMENT

Pre-requisites:

- UC Platform:
 - IP500v2 (R9.0.3) Preferred Edition
 - Server Edition (R9.0.3)
- Operating System:
 - Windows Server 2008 R2, 64 bit standard and enterprise editions
 - VMware vSphere platform with ESXi hypervisor ver 5.0/5.1/5.5

CAPACITIES

- IP500v2 (R9.0.3)
 - Up to 30 active/logged-in agents
 - Up to 1000 configured agents
 - Up to 30 supervisors
- Server Edition (R9.0.3)
 - Up to 250 active/logged-in agents
 - Up to 1000 configured agents
 - Up to 50 supervisors
- 100% recording of all agent calls (when deployed with VM Pro and Contact Recorder)

SERVICES/IPOSS

IPOSS is mandatory for ACCS and should be quoted with EVERY ACCS solution.

Reporting (real-time and historical)	
Call recording	
Database directed routing	

Customer Call Reporter (CCR) Agents & Supervisors

Enables supervisors to effectively manage agents in order to maximise revenue opportunities and enhance the customer experience.

- For businesses that makes and receives a high volume of customer calls
- Included with IP Office Advanced Edition (agents and additional supervisors must be activated individually)
- Up to 150 agents and 30 supervisors (1 supervisor included with Advanced Edition)
- Runs on a single server with agent and supervisor applications deployed via thin clients

BROWSER BASED PC WALLBOARD

CCR statistics, scrolling messages, agent leaderboard

ALARM THRESHOLDS BASED ON AGENT AND CUSTOMER STATES

REAL-TIME / HISTORICAL REPORTING

- 6 historical reports
- 100+ customisable reports
- Help drive more effective sales campaigns and activities to increase revenue opportunities
- Agents can manage their workload and maximise performance

VIRTUAL AGENTS

- Can be managed by supervisors
- Access to same information and features as office based agents

Avaya Networking

Overview

Avaya's data solutions offer a comprehensive portfolio of products that enable organisations to build networks that are always-on.

ETHERNET SWITCHING

CORE ETHERNET SWITCHING

- Aggregation point between users connected to edge switches and applications running to the data centre infrastructure
- Pivotal role in determining overall network availability and performance
- Switch Clustering technology, which delivers simplified always-on resiliency
- Horizontal Stacking and lower overall power consumption
- High levels of performance and reliability

EDGE ETHERNET SWITCHING

- Fixed-format stackable chassis switches for the branch and remote sites
- Resiliency, performance, efficiency and flexibility
- Resilient, high-performance stackable chassis architecture leveraging Flexible Advanced Stacking Technology (FAST)

UNIFIED BRANCH

- Simplified deployment of multi-site networks
- Exceptional performance and high degree of service consolidation
- Enhanced reliability and performance plus tight integration between WAN routers, LAN switches, firewalls and VPN services
- Innovative integration of UC functionality
- Support for 3rd party compatibility with SIP call servers, IP phones and a survivable SIP voice platform for the branch

WIRELESS NETWORKING

- Availability of 802.11n makes WLAN a viable alternative to wired networking
- WLAN 8100 Series is a next-generation solution combining 802.11n wireless standard with a truly unified wireless/wired architecture.

ACCESS CONTROL

- Portfolio comprised of SSL VPN, Secure Portable Office and Network Access Control solutions
- Provides endpoint security to help maintain end-to-end integrated security in an open, standards-based approach
- Device-agnostic to promote deployment in virtually any existing environment
- Health scans and robust authorisation policies seamlessly support LAN, WLAN and VPN infrastructures
- Secure guest networking, compliance portal access and reporting and analytics

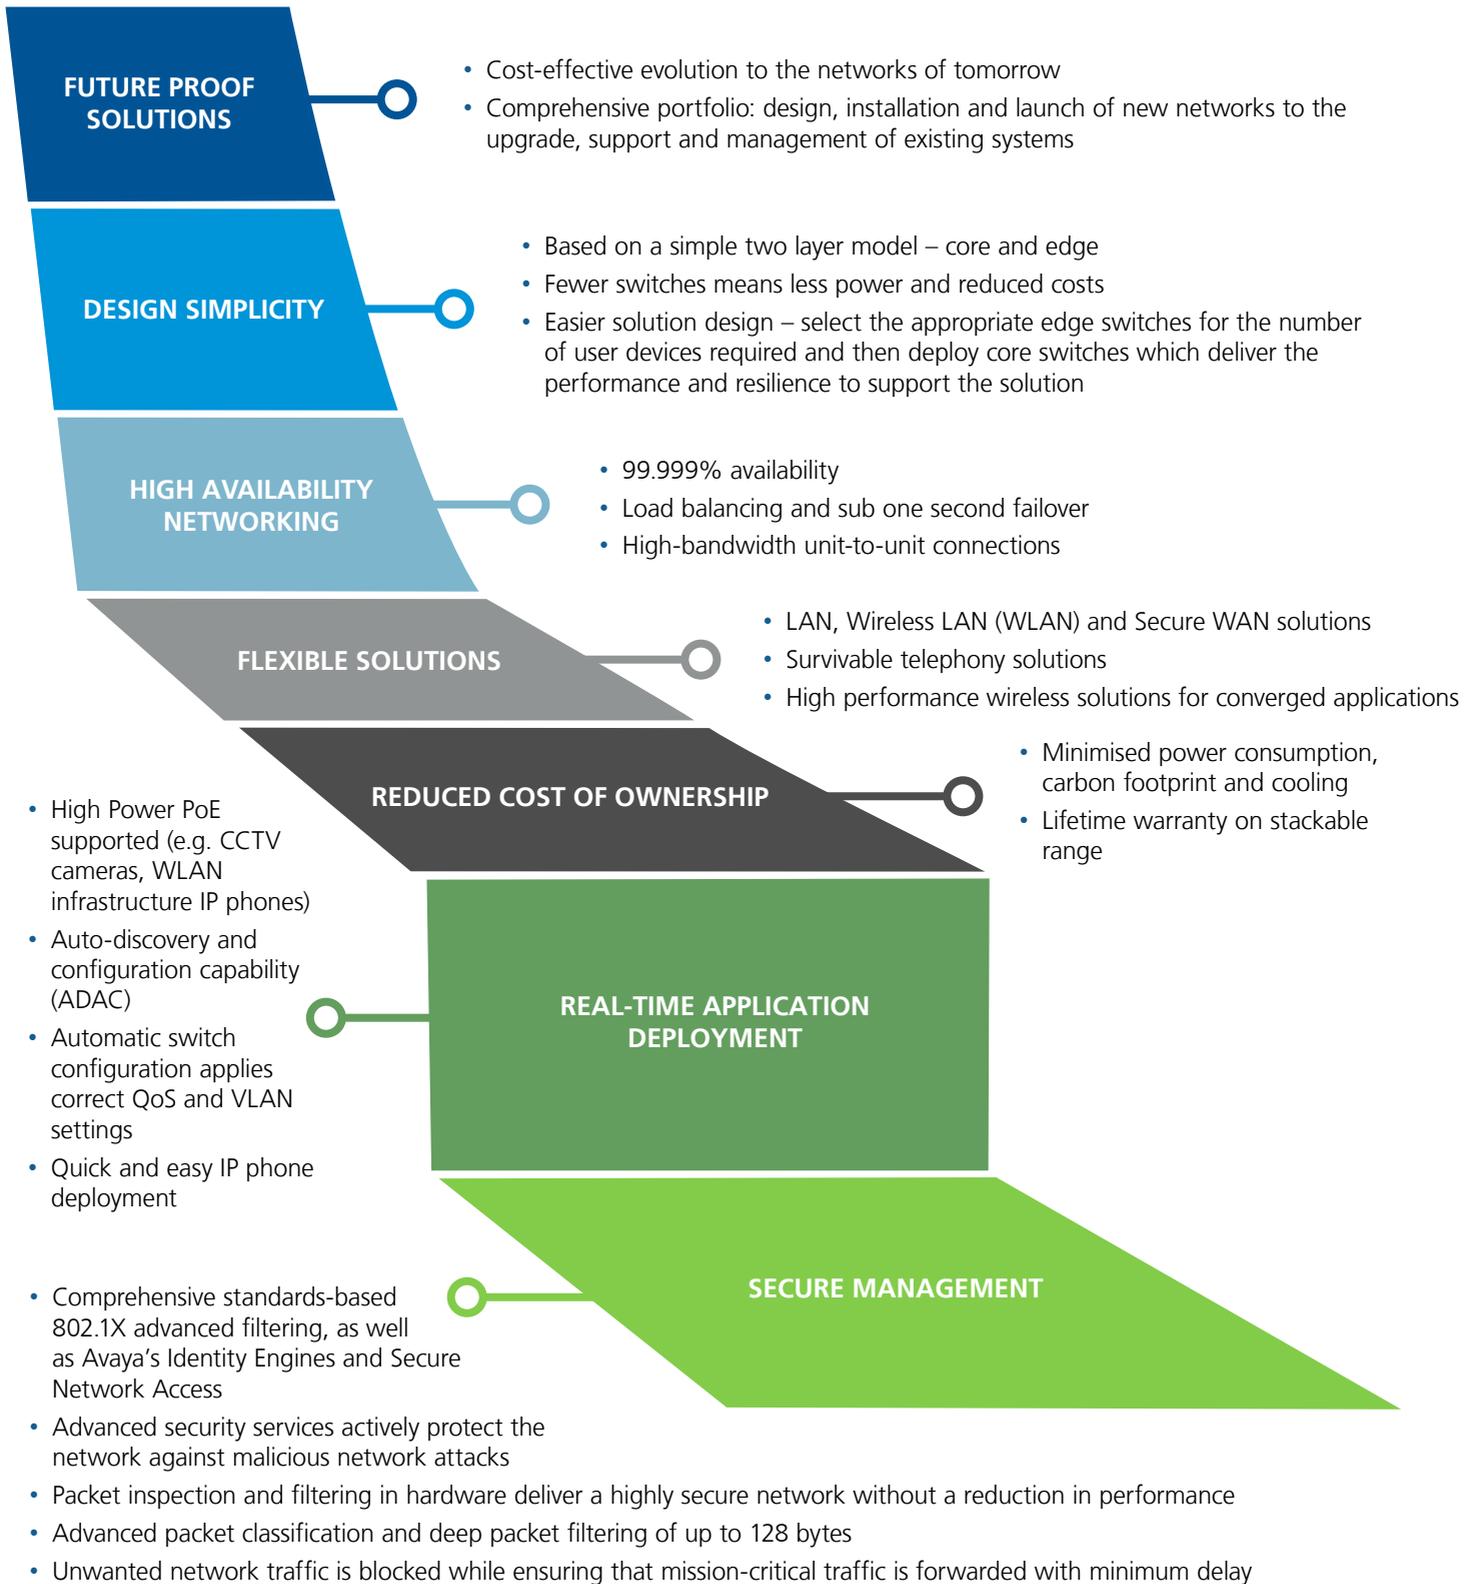

UNIFIED MANAGEMENT

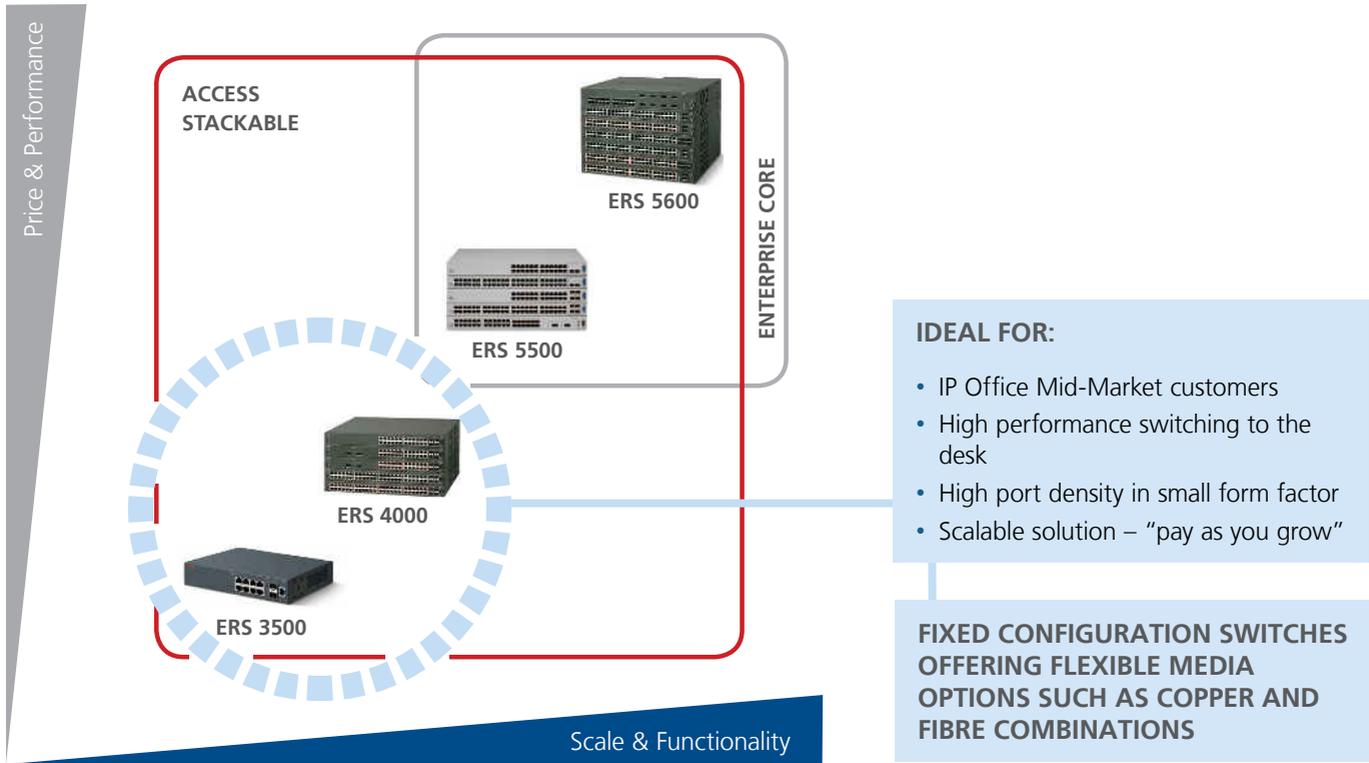

Avaya's UCM provides comprehensive network management capabilities across data/voice and wired/wireless networks utilising a set of common services. These allow for common components (e.g. user data, database information, certificate management) to be shared without repeating the same definitions and configurations for each application.

The portfolio offers single sign-on and a common look and feel, which helps ensure easy and secure access while reducing training requirements. The fully integrated, one-stop management portal provides a unified view of the network, while streamlining workflows and reducing installation, configuration and troubleshooting time, as well as reducing system operations and maintenance.

Why Avaya Networking Solutions?

Ethernet Edge Switching Solutions for IP Office

ERS 3500 SERIES

Family of standalone or stackable 10/100BASE-TX and 10/100/1000BASE-T Ethernet switching products perfectly suited to small to medium sized businesses.

8 DIFFERENT SWITCHING MODEL VARIANTS TO SUIT A WIDE RANGE OF DEPLOYMENT SCENARIOS

AVAILABLE IN 10, 24 AND 48 PORT FORM FACTORS

IDEAL FOR:

- Smaller or medium sized enterprises
- Branch offices of larger enterprises
- Great convergence-ready edge switch when used in conjunction with the Avaya UC Appliance IP500

CONVERGENCE-READY FOR UC

PLUG & PLAY FOR IP PHONES

INTELLIGENT STACKING

POE OR POE+

SOPHISTICATED QOS CAPABILITIES

LIFETIME WARRANTY

IN-SERVICE MAINTENANCE AND RESTORATION

ERS 4000 SERIES

Stackable Chassis system providing high-performance, convergence-ready, secure and resilient Ethernet switching connectivity.

AVAILABLE IN 4 MODEL VARIANTS

SUPPORTS:

- 10/100/1000 switching and routing
- PoE/PoE+
- 1 and 10 Gigabit Ethernet SFP+ uplink options

PLUG & PLAY CAPABILITIES FOR IP PHONE DEPLOYMENTS

PAY-AS-YOU-GROW STACKABLE CHASSIS

ADVANCED QOS CAPABILITIES

OPTIMISED FOR HIGH-DEFINITION VIDEO SURVEILLANCE

UP TO 400 PORTS AND 384 GBPS OF VIRTUAL BACKPLANE THROUGHPUT

ERS 4800 SERIES

IDEAL FOR:

- Customers looking for Gigabit to the desktop
- Customers requiring a network ready to support PoE+
- Customers building a network ready for the explosion of wireless traffic and the proliferation of HD video traffic
- Next-generation network edge deployments.

READY FOR WIRELESS SPLIT-PLANE, VIRTUAL SERVICES FABRIC AND AVAYA VENA

ERS 4500 SERIES

AVAILABLE IN 11 MODEL VARIANTS

SUPPORTS:

- 10/100 and 10/100/1000 switching
- PoE
- fast Ethernet and 10 Gigabit Ethernet uplink options

HIGH-CAPACITY STACKING:

- 40Gbps per switch and up to 320Gbps per stack
- Up to 400 ports

ADVANCED QOS IP PHONE PORT AUTO-CONFIGURATION

DISTRIBUTED TRUNKING

POWER REDUNDANCY

IDEAL FOR:

- Mid-to-large businesses
- Environments with either FE or GbE connectivity at the edge or both
- Where 10GbE uplinks will become important
- Enterprise wiring closet and other network edge deployments

COMPREHENSIVE STANDARDS-BASED 802.1X, ADVANCED FILTERING, AVAYA'S IDENTITY ENGINES AND SECURE NETWORK ACCESS SOLUTIONS
